This is an existing facility applying for a Title V permit renewal that is engaged in the manufacturing of industrial paint. The facility operates paint mixing systems, sandmills, and other supporting equipment. Particulate matter emissions from the paint mixing systems are controlled by two air pollution control equipment baghouses. Volatile organic compounds emissions from the paint mixing systems and sandmills are controlled by an air pollution control equipment catalytic oxidizer.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested the AQMD to renew their Title V permit. The proposed permit incorporates updates to the facility information provided in the facility's Title V renewal application and all rules and regulations that are currently applicable to the facility.

The proposed permit is available for public review at the AQMD, 21865 Copley Dr., Diamond Bar, CA 91765 and at the Lewis Library and Technology Center, 8437 Sierra Avenue, Fontana, CA 92335-3892. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review.
