Subject: Transmittal of Final Title V Permit (Renewal)
LA County Sanitation Districts (LACSD) Scholl Canyon Landfill – ID No. 45262

Dear Mr. Ferrante,

Enclosed please the final Title V permit renewal (Application Number 511602), for your facility listed above. This Title V permit supersedes the previous Title V Permit issued by the South Coast AQMD (AQMD). The draft copy of this permit which included a Minor Revision under A/Ns 460782 and 460784 was submitted to EPA Region IX for a 45-day review period on September 2, 2011 and made available for a 30-day public comment period on September 9, 2011. The AQMD did not receive any comments on the draft permit.

This permit also reflects removal of equipment that is no longer in operation per LACSD, and removal of conditions that are no longer relevant under administrative revision. The following table summarizes the changes made to the draft Title V renewal permit:

Application Number	Equipment	Action Taken
162689 (D29878)	Air Sparger System for Wastewater from Seepage Control Facility	Removed from permit. Equipment is no longer in operation.
197675 (D11335)	Air Stripping System for Canyon Water Treatment	Removed conditions number 9 and 11 that are no longer required. Conditions are related to one-time source testing and data submittal that is completed.
440827 (F77162)	Landfill Gas Flaring System	Removed from permit and replaced with A/N 460784 (G15467)
460782	Canyon Water Storage Tank with Passive Control System	Removed from permit. Equipment is no longer in operation.
460784 (G15467)	Landfill Gas Flare Station	Minor Revision to add two LFG fuel filters

Please review this facility permit carefully. If you determine that there are administrative errors in the permit, have any questions, or need additional information concerning this permit, please contact Charles Tupac of the Refinery and Waste Management Team at (909) 396-2684 within 30 days of the receipt of your permit.

Sincerely,
