Dear Mr. Rios:

Graphic Packaging International, Inc. (ID No. 157259) has proposed to revise their Title V permit by adding a flexographic heat-set printing press and to change permit conditions on three existing lithographic printing presses. This is a packaging box fabricator (SIC 2657) located at 1600 Barranca Parkway, Irvine, CA 92606. This proposed permit revision under A/N 521383 is considered a "deminimis significant permit revision" to their Title V permit. This revision will also include the administrative permit revision to change the responsible official and remove some equipment from the facility permit that have been removed or replaced. Attached for your review are the permit evaluations and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on May 4th.

The public notice provides for a 30-day comment period prior to making a final decision on the issuance of the permit, and is also being published in a newspaper of general circulation in the vicinity of this facility. This notice is being distributed to each address within a ¼-mile radius of the property line of the facility. This notice is also being sent to the California Air Resources Board, the Southern California Association of Governments (SCAG), the County of Orange, the City of Irvine, and the State and Federal Land Managers.

If you have any questions or wish to provide comments regarding this project, please call Mrs. Stacey Ebiner at (909) 396-2504.

Very truly yours,
