SUBJECT: Palos Verdes Landfill
Title V Facility Permit Revision (Facility ID 24520)

Dear Mr. Maguin,

Enclosed, please find the revisions for the Title Page, Table of Contents and Section H of your Title V Facility Permit. The revised sections reflect the approval of a Significant revision of the Title V Permit (Application No. 483616) and equipment listed below. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on December 29, 2009 and no comments were received from the EPA. A Public Notice was issued on December 29, 2009 and a public consultation meeting was held on February 24, 2010. AQMD received a number of comments from the public and as a result the draft permit was revised in accordance with applicable rules and regulations. The AQMD responses to these public comments are attached. The revisions to Section H of your Title V permit are as follows:

Section H: Application No. 483598, added Landfill Gas Microturbines.
Application No. 483617, added Landfill Gas Fuel Cell.
Application No. 483623, added Landfill Gas Flare.
Application No. 483625, changed equipment description for Landfill Gas Collection System.

Please review the attached pages and then insert the enclosed sections into your Title V Facility Permit and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Ted Kowalczyk at (909) 396-2592 within 30 days of the receipt of your permit.

Sincerely,

Mohsen Nazemi, P.E.
