TITLE V PERMIT EVALUATION (REVISION)

Applicant's Name: LA City, Sanitation Bureau (HTP)

Mailing Address: 12000 Vista del Mar
Playa del Rey, CA 90293

Equipment Location: SAME

Facility ID NO.: 800214

Background:

The application 542210 was submitted for Title V permit revision originally on 6/26/12 for construction of a new dust collector to replace the existing baghouse with an active permit (PO # P68553) venting an abrasive blasting equipment.

The proposed replacement of the existing baghouse is considered as de minimis significant Title V permit revision since the emissions are below the emission threshold levels in Table 1. The initial Title V permit was issued on 5/20/2011. The latest facility permit revision (revision No. 14) was completed on July 1, 2012.

Based on the District Facility Information Data, the criteria pollutants emissions for this facility are as follows:

Pollutant	tons/yr
CO	1.792
NOX	2.425
ROG	19.93*
SOX	0.611
PM	2.879

*The Threshold Level for VOC emissions is 10 tons/yr (per Rule 3001, Table 2).

Note:

1) A 45-day EPA review period and a 30-day public notice is required for the revision of TV permit. Therefore, prior to the issuance of the of TV revision permit, a copy of the TV revision permit will be sent to EPA for a 45-day review and a 30-day public notice issued.
2) Based on Final Facility HRA (12/16/1999), the MICR is determined to be 7.59×10^{-6} (see attached copy).

Rules Evaluation:

Compliance with applicable requirements of Rule 3002 & Rule 3005 for De Minimis Significant Permit Revisions is expected.

RECOMMENDATION:

Recommend issuing a TV Permit revision pending EPA and Public comments.
