CCNS Request to Terminate NPDES Permit #NM0028355 issued to
Los Alamos National Security, LLC, and the U.S. Department of Energy for the
Los Alamos National Laboratory

Greetings:

On behalf of Concerned Citizens for Nuclear Safety ("CCNS"), enclosed for filing is a Petition to the EPA's Environmental Appeals Board ("EAB"). This Petition is submitted pursuant to 40 C.F.R. § 124.5(b), which states: "Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, or hearings. Denials by the Regional Administrator may be informally appealed to the EAB by a letter briefly setting forth the relevant facts." The EAB review is not governed by the more formal procedural requirements of 40 C.F.R. § 124.19. However, we have styled out letter as a petition.

We enclose herein copies of the Petition, exhibits to the Petition, and materials filed before the Regional Administrator in connection with the June 17, 2016 Request to Terminate NPDES Permit NM0028355 issued to Los Alamos National Security, LLC, and the U.S. Department of Energy for the Los Alamos National Laboratory.

The undersigned hereby certifies that the within paper copies are identical to the electronic submission on this date.

Very truly yours,

Jonathan Block
Counsel for Concerned Citizens for Nuclear Safety
