Sonia:

Given your separate correspondence with Rick Cool, it is clear that you are currently checking your email and are able to respond to my email messages. Please see below my previous email message from June 27.

Please print the attached, sign, and send it back to me via email or mail. My mailing address is in my signature line below.

Sincerely,

Patrick B. Johnson

Sonia:

I hope that this message finds you well. I also received your separate email messages regarding this matter, including the email on June 23 suggesting that you had read EPA's filing on June 19 notifying the Hearing Officer that service of the administrative complaint had been completed. I am confident that proper service of the administrative complaint has been completed based on representations by the process server.

This exchange follows months of reasonable and diligent efforts by EPA to work with you to serve the administrative complaint in a manner most convenient to you. Additionally, it is clear that you have received electronic copies of the complaint and associated materials, most notably through your email exchanges with EPA immediately following the electronic filing in mid-February 2023.

I remain interested in working with you to streamline future communications related to this matter. Should you choose to file anything in this manner, it will likely be significantly easier for you to do

so electronically without needing to also serve EPA using certified mail or other means. Additionally, should EPA need to file anything further in this manner, it will likely be significantly easier for you to receive service of those filings electronically given your personal circumstances that you have articulated previously. Given how quickly you respond to EPA's electronic filings with the court, I am confident that you will receive any future electronic filings if they are served via email.

To make future correspondence in this matter more streamlined and easier for you, I request that you print the attached document, sign, scan, and send it back to me as an attachment via email. If easier, you can also print, sign, and mail it to me at my address below. This will allow both of us to avoid the need for certified mailing and/or process servers for future filings.

Please let me know if you have any questions.

Sincerely,

Patrick B. Johnson
