SUBJECT: Transmittal of Title V Facility Permit Revision No. 1 (Facility ID 010245)

Dear Mr. Bohlmann,

Enclosed, please find the revisions for the Title Page, Table of Contents and Section D of your Title V Facility Permit. The revised sections reflect the approval of a De Minimus Significant revision of the Title V Permit. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on December 30, 2009 and no comments were received from the EPA. No Public Notice was required for a De Minimus Significant revision. Changes to your Title V permit are as follows:

SECTION D: PERMITS TO OPERATE

Appl. Nos.	Description
474645	Modification of digester gas flaring system by addition of a flare.
352960	Removal of Internal Combustion Engine # 3.

Please review the attached pages and then insert the enclosed sections into your Title V Facility Permit and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Mr. Abdi Majidifar at (909) 396-2449 within 30 days of the receipt of your permit.

Sincerely,

Charles Tupas, for
