FACILITY ID 007417
APPLICATION 510555- Title V Minor Permit Revision

Background

Eastern Municipal Water District (EMWD) Perris Valley Regional Water Reclamation Facility (PVRWRF) filed A/N 510555 for Title V permit revision No. 06 on May 7, 2010. The Title V permit revision includes permit application 519142. A/N 529142 was filed for a change of conditions to an existing emergency natural gas fired engine to allow operation under a demand response program (DRP).

Note: Initial Title V (A/N 412175) was issued October 31, 2008. Title V Revision No. 05 (A/N 508904) was issued June 27, 2012.

Rules Evaluation

Reg. XXX:
Change of conditions to allow DRP operation of an existing emergency natural gas fired engine are considered a Title V Minor permit revision under Rule 3000(b)(15), since there is no emission increase and the modification does not result in new or additional NSPS or NESHAP requirements and will be subject to an EPA review (Rule 3003 (j)). A public notice is not required. An EPA 45 day review will be imposed. Compliance is expected.

Conclusions and Recommendations

A Permit to Operate is recommended for A/N 529142. A revised Title V permit is recommended after EPA review.
