(Facility ID NO.19159)

Dear Mr. Pack:

Enclosed please find the revisions for the Title page, Table of Contents, and Section H, of your Title V Facility Permit. The revised Sections reflect the approval of a De Minimus Significant Permit Revision of the Title V permit. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on October 28, 2009, and no comments were received from the EPA. No Public Notice was required for the Revision. The revision to Section H includes the revised permit as shown below:

SECTION H, PERMIT TO CONSTRUCT

Appl. No.	Equipment	Description
475845	Biofilter	New
475846	Sewage Treatment (>5 MGD) Anaerobic	Modification to increase capacity to 14 MGD from 11 MGD.

Please review the attached pages and then insert the enclosed sections in your Title V Facility Permit, and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Ken Matsuda at (909) 396-2656, within 30 days of the receipt of your permit.

Sincerely,
