Re: Notice of Proposed Decision - Significant Title V Permit Modification F-00454-17

Dear Mr. Rios:

Enclosed is a copy of the proposed Title V Statement of Basis and proposed revised Title V Permit F-00454-17 for the University of California, Davis (UCD) in Davis, CA. This notification is given in accordance with District Rule 3.8, Section 409.1 (a 30-day public notice comment period) and Sections 409.1.e and 411 (a concurrent 45-day regulatory review period) for a significant Title V permit modification.

The proposed revisions will include a total of three Authority to Construct (ATC) applications: two ATC applications, C-10-17 and C-10-45, for the installation of new diesel fired engines powering emergency generators and one ATC application, C-10-38, for the installation of a new natural gas fired engine powering an emergency generator.

The ATC applications have been processed in accordance with the District's Enhanced New Source Review (NSR) requirements of District Rule 3.4, Section 404. Upon implementation of the District ATCs, UCD shall submit a written request for District action to amend the Title V Permit, in accordance with District Rule 3.8, Section 404.1.

The notice of preliminary decision for this project will be published in the Davis Enterprise newspaper approximately three days from the date of this letter. Please submit your written comments on this project within the 45-day comment period which begins on the date the proposed documents are received by your agency. The District respectfully requests notification of the date the enclosed documents are received.

Thank you for your cooperation in this matter. If you have any questions, please contact Nancy Fletcher at (530) 757-3656.

Sincerely,

Susan K. McLaughlin

Susan K. McLaughlin
Supervising Air Quality Engineer
