The U.S. Environmental Protection Agency (EPA), Region 7 and Pella Window & Door Company, Inc., have agreed to a settlement of this action before the filing of a Complaint, and thus this action is simultaneously commenced and concluded pursuant to Rules 22.13(b) and 22.18(b)(2) of the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Issuance of Compliance or Corrective Action Orders, and the Renovation, Termination or Suspension of Permits (Consolidated Rules), 40 C.F.R. §§ 22.13(b) and 22.18(b)(2).

Section I

Jurisdiction

1. This proceeding is an administrative action for the assessment of civil penalties instituted pursuant to Section 16(a) of the Toxic Substances Control Act (TSCA), 15 U.S.C. § 2615(a).

2. This Consent Agreement and Final Order (CAFO) serves as notice that EPA has reason to believe that Respondent has violated Section 409 of TSCA, 15 U.S.C. § 2689, by failing to comply with the regulatory requirements of 40 C.F.R. Part 745, Subpart E, *Lead-Based Paint Renovation, Repair and Painting Rule*, (RRP Rule) promulgated pursuant to 15 U.S.C. §§ 2682, 2686 and 2687.

Section II

Parties

3. The Complainant, by delegation from the Administrator of EPA and the Regional Administrator, EPA, Region 7, is the Chief, Toxics and Pesticides Branch, EPA, Region 7.

4. The Respondent is Pella Window & Door, Company, Inc., a business in good standing under the laws of the state of Missouri.

Section III

Statutory and Regulatory Background

5. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992 (the Act), 42 U.S.C. §§ 4851 to 4856, to address the need to control exposure to lead-based paint hazards. The Act amended TSCA by adding Sections 401 to 412, 15 U.S.C. §§ 2681 to 2692.

6. On June 1, 1998, EPA promulgated information distribution and record keeping requirements codified at 40 C.F.R. Part 745, Subpart E, *Requirements for Hazard Education Before Renovation of Target Housing* (Pre-Renovation Education Rule or PRE Rule) pursuant to 15 U.S.C. § 2686. On April 22, 2008, EPA amended and re-codified the PRE Rule information distribution and recordkeeping requirements and

promulgated additional regulations at 40 C.F.R. Part 745, Subpart E, *Lead-Based Paint Renovation, Repair and Painting Rule* (RRP Rule) pursuant to 15 U.S.C. §§ 2682, 2686 and 2687. The regulations aimed to protect the public from lead-based paint hazards associated with renovation, repair and painting activities. Under the RRP Rule, each person or firm who performs for compensation a renovation of target housing or a child-occupied facility must be trained and certified by an EPA accredited training provider to conduct renovation, remodeling and/or painting activities. Firms and individuals performing renovation, repair and painting projects for compensation that disturb lead-based paint must use certified renovators who follow specific work practices to prevent lead contamination. Prior to the start of renovation, the firm or individual performing the renovation must provide the owners and occupants of the target housing units subject to regulated renovation, repair, and/or painting a copy of the U.S. Environmental Protection Agency-approved *Renovate Right: Important Lead Hazard Information for Families, Child Care Providers and Schools* pamphlet, and maintain written acknowledgment that the pamphlet has been provided.

7. Section 402 of TSCA, 15 U.S.C. § 2682, requires that the Administrator of EPA promulgate regulations regarding the activities of individuals and contractors engaged in lead-based paint activities, including renovation of residences built prior to 1978, and regulations for the certification of such individuals and contractors.

8. EPA promulgated regulations regarding lead-based paint activities, including renovation of residences built prior to 1978, and regulations for the certification of individuals and firms who are involved in these activities. These regulations are found within 40 C.F.R. Part 745, Subpart E.

9. Section 406 of TSCA, 15 U.S.C. § 2686, requires that the Administrator of EPA promulgate regulations to require each person who performs for compensation a renovation of target housing to provide a lead hazard information pamphlet to the owner and occupant of such housing prior to commencing the renovation.

10. EPA promulgated regulations requiring each person who performs for compensation a renovation of target housing to provide a lead hazard information pamphlet to the owner and occupant of such housing prior to commencing the renovation. These regulations are found within 40 C.F.R. Part 745, Subpart E.

11. The term *target housing* means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child who is less than six (6) years of age resides or is expected to reside in such housing) or any zero-bedroom dwelling. 15 U.S.C. § 2681(17).

12. The term *renovation* means the modification of any existing structure, or portion thereof, that results in the disturbance of painted surfaces, unless that activity is performed as part of an abatement as defined by this part (40 C.F.R. § 745.223). The term renovation includes but is not limited to the following: the removal, modification or repair of painted surfaces or painted components (e.g., modification of painted doors, surface restoration, window repair, surface preparation activity (such as sanding, scraping, or other such activities that may generate paint dust)); the removal of building components (e.g., walls, ceilings, plumbing, windows); weatherization projects (e.g., cutting holes in painted surfaces to install blown-in insulation or to gain access to attics, planning thresholds to install weather stripping), and interim controls that disturb painted surfaces. 40 C.F.R. § 745.83.

13. The term *firm* means a company, partnership, corporation, sole proprietorship or individual doing business, association, or other business entity; a Federal, State Tribal, or local government agency; or a nonprofit organization. 40 C.F.R. § 745.83

14. 40 C.F.R. § 745.89(a)(1) states that firms that perform renovations for compensation must apply to EPA for certification to perform renovations or dust sampling.

15. Pursuant to 40 C.F.R. § 745.86(b)(6), certain records must be retained including, but not limited to, documentation of compliance with the work practice requirements, including documentation that a certified renovator was assigned to the project.

16. Failure to comply with any provision of 40 C.F.R. Part 745, Subpart E (RRP Rule) violates Section 409 of TSCA, 15 U.S.C. § 2689, which may subject the violator to administrative penalties under Section 16(a) of TSCA, 15 U.S.C. § 2615(a) and 40 C.F.R. § 745.87(d).

17. Section 16(a) of TSCA, 42 U.S.C. § 2615, and 40 C.F.R. § 745.87(d), authorize the EPA Administrator to assess a civil penalty of up to \$25,000 for each violation of Section 409 of TSCA. Each day that such a violation continues constitutes a separate violation of Section 15 of TSCA, 15 U.S.C. § 2614. The Debt Collection Improvement Act of 1996, 31 U.S.C. § 3701, and its implementing regulations at 40 C.F.R. Part 19, increased these statutory maximum penalties to \$37,500 for violations that occurred after January 12, 2009.
