Re: Determination of Non-Major Facility Status for Oyster Creek Generating Station, Forked River, Ocean County

DIFF# 1512001/5000

Dear Mr. Moore:

Thank you for your May 7, 1998 correspondence. Based on the information submitted, it has been determined that your facility does not currently meet the definition of a "major facility" as defined in N.J.A.C. 7:1E-1.6. However, if the storage capacity or other conditions change in the future, your facility may become a major facility and shall then be required to comply with any applicable provisions of N.J.A.C. 7:1E.

As a non-major facility you are still required to comply with the provisions for notification of discharges and discharge confirmation reporting as per N.J.A.C. 7:1E-5.

If you have any questions feel free to contact Mr. Helfrich at 609-984-7573.

Sincerely,

Darryl C. Dennus, Chief
Field Verification Section
Bureau of Discharge Prevention

c: David Helfrich, Principal Environmental Engineer
Beth Reddy, Chief, Plan Review Section
