CONTAINS TRADE SECRET OR OTHERWISE CONFIDENTIAL INFORMATION OF MONSANTO COMPANY

Gentlemen:

This letter supplements my letter of June 4, 1985 on information for the CHIP document on 4-Nonylphenol. It contains trade secret or confidential business information of Monsanto Company and is for EPA use only. Such information is exempt from disclosure under Section 552(b)(4) of the Freedom of Information Act. The disclosure by the EPA of such information would result in substantial harm to Monsanto's competitive position.

Current Production Volumes

[redacted]

Sincerely,

Gilbert J. McEwan
Manager, Product Acceptability
