Dear Mr. Borghi:

This letter confirms our August 12, 1986 phone conversation regarding the "confidentiality" statement on several Monsanto reports enclosed with my July 29, 1986 letter of transmittal. The "confidentiality" statement is a standard wording used on all internal R&D reports. For the purpose of this assessment by Dynamac, the Interagency Testing Committee or EPA, Monsanto waives the confidentiality clause and these reports are not to be considered as confidential business information.

Sincerely,

James P. Mieure
