ATTN: TSCA 8(e) Coordinator

Dear Sir or Madam:

On May 7, 1996, FMC Corporation ("FMC") notified the Agency pursuant to TSCA §8(e) of preliminary information of adverse effects observed during a static acute 120-hour EC50 study with 5% Peracetic Acid (CAS Number 79-21-0) conducted in freshwater green alga, *Selenastrum capricornutum*.

As indicated in that letter, FMC is herewith providing EPA with a copy of the final audited report. Also FMC makes no claims of confidentiality for this submission.

Sincerely yours,

Linda M Clark
