Re: April 14, 2000 TSCA 8(e) Submittal, CASRN Correction

Dear Sir or Madam:

The purpose of this letter is to alert you to an error in my cover letter of April 14, 2000 that transmitted 27 toxicity studies to your office. Page 4, item 2c of that letter describes several ecotoxicity studies that were conducted on distilled tall-oil. The Chemical Abstract Services Registry Number (CASRN) for tall-oil mistakenly was reported as 61790-12-3. CASRN 61790-12-3 describes "fatty acids, tall-oil" and not tall-oil. The correct CASRN for tall-oil is 8002-26-4. It is my understanding that the April 14, 2000 letter may have been distributed by EPA staff to chemical industry contacts on a "for your information" basis. The erroneously reported CASRN may cause confusion as to the identity of the substance that was tested.

Please add this letter to your TSCA § 8(e) files as a correction to my April 14, 2000 letter. Thank you. If you have any questions, I can be reached at 202/942-5477.

Sincerely,

Contain NO CBI
