Elizabeth,

As we discussed, Envirocon has been unable to locate some of the Health and Safety documentation for the Wheeler Bay project, summarized as follows.

1) Wheeler Bay Health and Safety Orientation Meeting

The Wheeler Bay Health and Safety Orientation Meeting was held on August 5, 2008 from 8:00 am to 9:30 am. A sign-in sheet was present at the meeting, but has been misplaced. The Daily Construction Report for August 5 documents that the meeting occurred.

2) Health and Safety Plan Signature Page

The Health and Safety Plan as published in the final work plan did not include a signature page. A signature page was produced and was present on the site at kickoff of the project. On-site staff were required to review the Health and Safety Plan and signed the signature page acknowledging understanding of the requirements. Envirocon searched their files and could not locate the signature page.
