Subject: Proposed Minor Revision to Title V Facility Permit for ConocoPhillips Company, Wilmington Refinery (Facility ID # 800363)

Dear Gerardo:

Enclosed for your 45-day review is the proposed Minor revision to the Title V facility permit for the Wilmington Refinery of ConocoPhillips Company (CPW) located at 1660 W. Anaheim St., Wilmington, California. The initial Title V permit for this facility was issued on July 1, 2009.

The South Coast Air Quality Management District (AQMD) has received application A/N 484549 from CPW for approval of its revised Flare Monitoring and Recording Plan (FMRP). The compliance plan was submitted pursuant to AQMD Rule 1118(f)(1)(A). This revised FMRP supersedes the previous FMRP approved under A/N 400212. There will be no impact on emissions as a result of this plan amendment. The AQMD plans to approve the revised plan with the conditions shown in the attached draft approval letter. The revised portion of the permit (Section I of the Title V permit), the draft plan approval letter, and our evaluation report are attached for your review.

This letter is being sent to you via email in order to facilitate your review. If you have any questions or wish to provide comments regarding the proposed plan, please contact the processing engineer, Mr. Thomas Lee at (909) 396-3138 or by email at tlee1@aqmd.gov.

Sincerely,

Jay Chen P.E.
Senior AQ Engineering Manager
Refinery, Waste Management, and Terminal Permitting
