Subject: AES Huntington Beach, LLC (ID 115389) – Title V Permit Revision

Dear Mr. Rios:

The AES Huntington Beach, LLC operates a power plant in the city of Huntington Beach. It has proposed to revise its Title V permit under Application No. 526795 by the following actions.

Application #	Device #	Section #	Proposed Actions
526795	D22, D25	D	Modification of condition A195.5, D28.3

This proposed permit revision is considered as a "minor permit revision" to its Title V permit. Because the proposed changes of conditions are related to clarification of existing permit conditions they do not require an engineering analysis. Attached for your review is the proposed Section D. With your receipt of the proposed Section D today, we will note that the EPA 45-day review period begins on September 23, 2011.

If you have any questions or need additional information regarding the proposed permit revision, please call Li Chen at (909) 396-2426.

Very truly yours,

Brian L. Yeh
Senior Manager
Mechanical, Chemical, and Public Services
