RE: Docket # TSCA-01-2009-0105

REQUEST OF EXTENSION OF TIME TO REQUEST A HEARING

The Respondent in the above action, Michael Perugini, requests a further 30 day extension of time to request a hearing. A previous 30 day extension to January 29, 2010 was already granted on December 29, 2009.

The reason for such request is that the Respondent has submitted a revised offer of settlement on January 21, 2009. Though he was certain that this offer would be accepted, as the reduction in fine requested are in line with E.P.A. section 1018 guidelines, the Complainant has indicated in a phone conversation with the Respondent on this same date that they were dissatisfied with my offer. At this point, while still attempting to settle the issue, the Respondent requires time to secure an attorney in order to file a proper answer to the complaint and the 30 days extension is absolutely necessary.

Thank you,

Michael Perugini
