CROWN CHROME PLATING

2010 OCT -7 PM 1:14

U.S. EPA REGION IX
REGIONAL HEARING CLERK

October 6, 2010

Regional Hearing Clerk (ORC-1)
Office of Regional Counsel
U.S. Environmental Protection Agency
75 Hawthorne Street
San Francisco, California 94105

Dear Madam / Sir

In reference to U.S. EPA Docket No. RCRA-09-2010-0014 received on 9/10/2010, Crown Chrome Plating, CAD 072924103, we would like to request an extension to provide the necessary documents to your office. In the last couple months, there were few changes that hampered my effort to provide the required documents.

1. Crown Chrome Plating and Castle Precision Industries were both under the umbrella of TMW Corp and the Controller at Castle Precision Industries was handling the financials of Crown Chrome Plating. As of August 2010, Castle Precision Industries was sold to Circor Corp who kept the employment of the employees including the Controller. This is causing the delay trying to get the financials of Crown Chrome Plating that would help me assess what we can and can't afford to pay in terms of penalties.
2. Also, The General Manager in charge of this issue at Crown Chrome Plating was replaced. This huge task was assigned to me in addition to my daily responsibilities.
3. Transferring the computer data base from Castle Precision Industries to Crown Chrome plating is taking longer time than expected.

If you have any questions, please do not hesitate to call me @ (818) 374-1074.

Sincerely

Akram Alawar
