Smoke impacts on public roads, schools, daycares, medical facilities, elder homes and other sensitive receptors must be prevented as a condition of this permit. Burning is not permitted during burn bans or air pollution episodes. This permit is part of a federal air quality program administered by the Nez Perce Tribe to control emissions of air pollutants and manage smoke for air quality purposes. These rules apply to any person within the exterior boundaries of the 1863 Nez Perce Indian reservation.

The public reporting and recordkeeping burden for this collection of information is estimated to average 0.10 hour per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

EPA Form 7630-8

Approved OMB 2060-0558
 Approval Expires 5/31/2011

We appreciate your comments or feedback. Please write below.

Q: Why do I need a permit?

A: Smoke from open burning is an air pollutant with effects on air quality and public health (especially for children and the elderly).

Q: What are some alternatives to outdoor burning?

A: Chipping and shredding vegetation for composting. Also, household items such as glass, plastics and paper can be recycled and should not be burned.

Q: How can I burn more cleanly?

A: Make sure your fuel is as dry as possible, separate the fire from damp ground and be sure there is enough draft to keep the fire burning hot.

Q: Are there exceptions?

A: Cultural, traditional and recreational fires are exempt and do not require a permit.
