Re: Underground Storage Tank (UST) Compliance Inspection of UST facility  
Sammy Quick Stop (formally Rinku Food Mart, Inc.)  
361 Walnut Street  
Elmira, NY 14901  
  
Expedited Settlement Agreement  
Docket No. RCRA-02-2018-7706

Dear Mr. Singh:

The U.S. Environmental Protection Agency (EPA) Region 2 is in receipt of Sammy Quick Stop's penalty payment of \$9,370, the signed Expedited Settlement Agreement, and the documentation that the USTs at the above referenced facilities are now in compliance. By signing the Expedited Settlement Agreement, you have agreed to the terms of the Expedited Settlement Agreement and Final Order and have certified that all violations cited in the proposed Expedited Settlement Agreement were corrected.

Enclosed you will find a copy of the Expedited Settlement Agreement and Final Order issued by EPA. EPA has approved the Expedited Settlement Agreement based on your signed certification and supporting compliance documentation. EPA will take no further civil action against you for the violations listed in Proposed Expedited Settlement Agreement provided that all listed violations were timely corrected. EPA may choose to re-inspect the USTs located at Sammy Quick Stop facilities and if EPA identifies any violations of federal UST regulations during the re-inspection or from any other information obtained by EPA, such findings would be Sammy Quick Stop's second violation of federal underground storage tank (UST) regulations. A second offense may result in a civil or judicial action which can include seeking penalties of up to \$23,426 per UST system per day of violation.

If you have any questions regarding this letter or any other related matter, please contact Paul Sacker of my staff at (212) 637-4237 or by e-mail at [sacker.paul@epa.gov](mailto:sacker.paul@epa.gov). Thank you for your cooperation.

Sincerely,

Claudia Gutierrez, Team Leader  
UST Team

Enclosure

C.F.R. § 280.45 from at least January 11, 2016 through January 11, 2017.

- c. 40 C.F.R. § 280.50 (specifically § 280.50(b)(2)) requires owners and operators of UST systems must report to the implementing agency within 24 hours, or another reasonable period specified by the implementing agency the New York State Department of Environmental Conservation (NYS DEC requires 2 hours), and follow the procedures in §280.52 if they observe unusual operating conditions (such as liquid in the interstitial space of secondarily contained systems), unless: the system equipment or component is found not to be releasing regulated substances to the environment or any defective system equipment or component is immediately repaired or replaced. During the January 11, 2017 UST inspection, the inspector noted that the liquid status sensors for the two pressurized lines were reporting a “fuel alarm” which could be an indication of a potential release, and meets the definition of an “unusual operating condition” that would require an immediate investigation and repairs and a report to the NYS DEC within 2 hours.

A check of the NYS DEC Spill Report database indicated that no spill report was made at this location up until at least February 24, 2017 when EPA notified NYS DEC of the alarms. Respondent’s reply to EPA’s June 15, 2017 IRL did not provide any documentation to show that Respondent reported a potential release to the NYS DEC in a timely manner. Additional correspondence between EPA and Beavers Petroleum Equipment, Inc. indicates that the sensors were found to be faulty and were reset on January 18, 2017 (one week after the alarms were noted by EPA) and not fully repaired until May 1, 2017. Therefore, Respondent’s failure to timely report a suspected release to the implementing agency is a violation of 40 C.F.R. § 280.50 from at least January 11, 2017 through January 18, 2017.

- d. 40 C.F.R. Part 280.93(a) requires that all UST system owners and operators must demonstrate financial responsibility for taking corrective action and for compensating third parties for bodily injury and property damage caused by accidental releases arising from the operation of petroleum underground storage tanks. During the January 11, 2017 UST inspection of the facility, the EPA contractor inspector noted that Respondent did not demonstrate a financial responsibility mechanism that would provide third party bodily injury liability for its three USTs. Respondent’s reply to EPA’s June 15, 2017 IRL did not provide documentation of financial assurance prior to the inspection and indicates that Respondent has been unsuccessful in obtaining a current financial assurance mechanism that provides affordable third party bodily injury liability coverage as the tanks are too old. The company states it is working on having the current USTs removed and replaced with new USTs. Respondent’s failure to demonstrate financial assurance for the three USTs at the Facility, including at a minimum coverage for third party bodily injury liability, from at least five years prior to the inspection (January 11, 2012) through the present is a violation of 40 C.F.R. §280.93.
2. The EPA and the Respondent agree that settlement of this matter for a penalty of \$9,370 without further proceedings is in the public interest.
  3. The EPA is authorized to enter into this Expedited Settlement Agreement and Final Order (“Agreement”) pursuant to section 9006 of RCRA and 40 C.F.R. § 22.13(b) and § 22.18(b)(2).
  4. In signing this Agreement, the Respondent: (1) admits that the Respondent is subject to

requirements listed above in Paragraph 1, (2) admits that the EPA has jurisdiction over the Respondent and the Respondent's conduct as described herein, (3) neither admits nor denies the factual determinations contained herein, (4) consents to the assessment of the penalty in paragraph (2) above, and (5) waives any right it may have to contest the determinations contained herein.

5. By its signature below, the Respondent certifies, subject to civil and criminal penalties for making a false submission to the United States Government, that it has: (1) corrected the violations described above, (2) submitted true and accurate documentation of those corrections, (3) provided a deposit for full payment of the civil penalty in Paragraph 2 above in accordance with the EPA penalty collection procedures provided to the Respondent, (4) submitted true and accurate proof of deposit for full payment of the civil penalty with this Agreement, and (5) agreed to release the deposit for full payment to the EPA upon entry of this Order.
6. Full payment of the penalty in Paragraph 2 shall only resolve Respondent's liability for federal civil penalties for the violation(s) and facts described in Paragraph 1, above. Full payment of this penalty shall not in any case affect the right of EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violations of law.
7. Upon signing and returning this Agreement to the EPA, the Respondent waives the opportunity for a hearing or appeal pursuant to Section 9006(b) of RCRA or 40 C.F.R. Part 22.
8. Each party shall bear its own costs and fees, if any.
9. This Agreement is binding on the parties signing below, and in accordance with 40 C.F.R. § 22.31(b), is effective upon the date of its filing with the Regional Hearing Clerk, U.S. Environmental Protection Agency, Region 2, New York, New York.

IT IS SO AGREED,

RESPONDENT:
