Re: Notice of Completion of Work, Administrative Settlement
Agreement and Order on Consent for Tank Characterization
Docket No. CERCLA-10-2007-0181

Dear Mr. Coles:

The U. S. Environmental Protection Agency (EPA) has determined, pursuant to Section XXIX of the above agreement, that Energy and Materials Recovery, Inc. (EMRI) has completed all work required by the above Agreement. In addition, EPA acknowledges that EMRI has removed all the contents of Tank 23 on the Harbor Oil Superfund Site, which was not a requirement of the Agreement but was sought by EPA and voluntarily done by EMRI. I would like to thank you and your client for removing a potential threat from the Site in a cooperative and efficient manner.

If you have any questions please, contact me at (206) 553-1478.

Sincerely,

Christopher Cora
Remedial Project Manager
