Brian — thanks for sending this over. I've only had a chance to skim it quick. in the FS this phrase caught my eye: "Because the mixing zone policy adopted by the State of Idaho in 2015 has not yet been approved by EPA, the prior mixing zone policy remains in effect for Clean Water Act purposes.." Given the discussion of this issue with regard to the Sandpoint permit, is it likely that a similar statement will be in that supplemental draft when it is released?

Matt:

The public comment period for KPSD starts today (1/25) and ends February 26th.

The permit documents are on our website, here:
