Lenexa, KS 66219

Re: Release of claims for confidential business information (CBI) for public notice
Underground Injection Control Class VI Permit Application No. KSS151570001

Dear Mr. Meissner,

Pratt Energy, LLC ("Pratt") previously asserted a claim that all information contained in the Class VI permit application be treated as confidential business information (CBI) as permitted by the provisions under 40 C.F.R. Part 2, Subpart B. Pratt hereby intends to release all claims of CBI pertaining to the attachments of the Class VI permit application to the extent they must be appended to a draft Class VI permit to construct. Pratt believes this will promote transparency and engagement with the local community as part of the decision-making process. Pratt, however, intends to retain CBI claims for all supplementary material included with the Class VI permit application.

Please reach out if you have any questions on this matter.

Regards
