**Importance:** High

Tyler,

We received a new QASP in the zipped files Delphine put on "Mass Transit". I want to confirm that we will work with the "new"/"revised" QASP (which has an "a" at the end of the file name). Additionally, since we started a review of the QASP you sent in the email below, do you have any "guidance" or information that might facilitate a better understanding of what has changed? If not, we can do a document compare and identify the differences.

Regards,  
Molly

**Subject:** FutureGen QASP

Jeff,  
Attached is the FutureGen Quality Assurance Surveillance Plan that EPA requested in support of our Class VI permit application. Tomorrow we will be sending the additional plans.

I also want to let you know that the insurance provider, AIG, is drafting revised policy terms to address EPA's comments and redline changes to the EPA certificate of insurance. We anticipate that this draft policy will be available to send to you by this Friday. Please call if you have any questions.  
Thank you  
Tyler
