Erica,

I appreciate the opportunity to review the revised draft Part 71 permit prior to the public notice. Unfortunately, the recent changes to the draft permit still do not address the legal deficiencies noted by Harvest in its comments submitted on September 6, 2023—specifically that Title V does not authorize EPA to impose new substantive requirements on the facility. For this reason, Harvest respectfully requests that EPA hold off on public notice and revise the draft permit to address these concerns. Should EPA decide to move forward with public notice of the draft permit, Harvest intends to undertake a thorough review of all the permit conditions and provide relevant public comment at the appropriate time. Should you have any questions or wish to discuss further, please let me know.

Sincerely,

Oakley Hayes, CEM

Environmental Specialist

Harvest Midstream Company

Hi Erica,

I apologize for the delayed response. I was traveling for work last week and was out of the office yesterday. I received your voicemail this morning. I am reviewing with our group internally and will provide feedback.

Mr. Hayes,

Attached for your review, please find a copy of the draft Part 71 permit for the Harvest Four Corners, LLC - Los Mestenos Compressor Station. We are providing you an opportunity to review for accuracy prior to public notice.

Please provide your feedback by Wednesday, October 4, 2023, with a target date for public notice possibly Friday, October 6, 2023.

Respectfully,

Erica G. LeDoux, Environmental Engineer

Hi Erica,

I talked with the group, and rather than waiting until the public comment period, Harvest is respectfully requesting an extension of this pre-public notice review period. Please see attached.

Hi Erica,

I started reviewing the document but had quite a few comments. These are probably things that will need to be addressed on the record, so Harvest will provide its comments during the public comment period.
