# EPA Seeks Comments on Draft Underground Injection Permit

## Muskegon Development Company

Clare County, Michigan

February 2017

### How to comment

You may comment on the proposed permit approval in writing. Please refer to Holcomb 1-22, Permit # MI-035-2R-0034

Mail, email or fax your comments to:

#### William Tong

U.S. EPA, Water Division  
UIC Branch (WU-16J)  
77 W. Jackson Blvd.  
Chicago, IL 60604-3590

Email: [tong.william@epa.gov](mailto:tong.william@epa.gov)

Fax: (312) 886-4235

Phone: (312) 886-9380

### Comment period

The Agency will accept written comments until **March 15** (midnight postmark).

### Information repository

You may see the draft permit at:

#### Harrison District Library

105 East Main Street

Harrison, MI 48625

Monday 10 am to 7 pm,

Tuesday-Friday 10 am to 6 pm, and

Saturday 10 am to 2 pm.

or at <http://go.usa.gov/3JwFP>.

### Administrative Record

You may see the full administrative record, including all data Muskegon Development Company submitted, at the EPA's Chicago regional office (*address above*), 9 a.m. to 4 p.m., weekdays. For an appointment to see the files, contact William Tong (*see above*).

### Right to appeal

You have the right to appeal any final permit decision if you make an official comment during the comment period or participate in the public hearing. A public hearing is not planned at this time. The first appeal must be made to the Environmental Appeals Board.

The U.S. Environmental Protection Agency plans to allow Muskegon Development Company, 1425 South Mission Road, Mount Pleasant, Michigan 48858 to inject fluid underground by approving the company's application for what EPA calls a Class II injection well permit.

If EPA makes its approval final, Muskegon Development Company may inject fresh water for enhanced oil recovery into a rock formation 4948 feet below the surface through a well at NW ¼, Section 22, T19N, R3W, Clare County. Muskegon Development Company has also applied for a permit from the Michigan Department of Environmental Quality (MDEQ).

EPA is accepting comments from the public on this proposed permit approval (*see box, left*). The public comment period, which ends **Wednesday, March 15, 2017** includes 30 days for comments as required by law, plus an additional three days for any delay caused by mailing.

During the comment period, you may ask EPA – in writing – to hold a formal public hearing (*see address, left*). Be sure to say specifically what issues you want to raise. EPA will hold a hearing if there is significant interest. If there is a hearing, EPA will publish a notice at least 30 days prior. You will have an opportunity to make oral comments or submit written comments. EPA will consider all comments it receives, and then issue a final decision along with a response to significant comments.

The Safe Drinking Water Act requires EPA to regulate the underground injection of fluids through wells to protect the quality of underground sources of drinking water. Issuing permits is one way EPA does this. You can find the regulations governing underground injection wells at Title 40 of the Code of Federal Regulations, Parts 144 and 146.

EPA does not have the authority to change the surface location of the injection well. If you have questions or concerns about the well's location, contact the MDEQ, P.O. Box 30256, Lansing, Michigan 48909 and phone number (517) 284-6826.

To learn more about EPA's Underground Injection Control program, or to join our mailing list visit <http://go.usa.gov/3JwFP>.
