Dallas, Texas 75206

Re: Permit Expiration: ND22349-11250; Red Murphy SWD No. 1

Dear Mr. Walker:

This letter is to notify you that your U.S. Environmental Protection Agency Region 8 Underground Injection Control (UIC) Permit for the above referenced well or project area has expired.

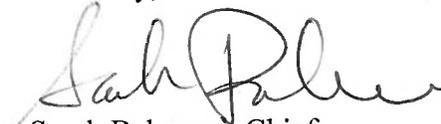

Part I. of the Permit states that "[t]his Permit is issued for the operating life of this facility." You informed the EPA by letter dated July 26, 2019, that well construction will not take place, and therefore the operating life of the permitted well has ended. Consequently, you requested the Permit be expired. This is consistent with Part I. of the Permit and the UIC regulations at 40 CFR 144.36(a).

Please note that if in the future Goodnight Midstream would like to construct and operate a well at this site, it must re-apply for a permit.

Please contact Benjamin D'Innocenzo regarding the release of financial assurance at (303) 312-6342 or dinnocenzo.benjamin@epa.gov.

If you have any questions about the above action, please contact Craig Boomgaard at (303) 312-6794 or boomgaard.craig@epa.gov. You may also contact us at the letterhead address, citing "Attention: Craig Boomgaard, Mail Code 8WD-SDU."

Sincerely,

Sarah Bahrman, Chief
Safe Drinking Water Branch
