Re: Erie Coke Superfund Site, Erie, Pennsylvania: Notice of Intent to Perfect Federal Superfund Lien; Opportunity To Be Heard

Dear Mr. Saffrin:¹

This letter informs Erie Coke Corporation (“ECC”) that the United States Environmental Protection Agency (“EPA” or “Agency”) intends to perfect a lien on real properties owned by ECC located at or near 925 E. Bay Drive, Erie, Pennsylvania, the legal descriptions of which are contained in Enclosure 1 to this letter (the “Properties”).

By letter dated December 15, 2020, EPA sent to ECC a similar Notice of Intent to Perfect a Superfund Lien (“December 2020 Notice of Intent”) with regard to the Properties. As set forth in the December 2020 Notice of Intent, EPA seeks to perfect a lien arising under Section 107(l) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (“CERCLA”), 42 U.S.C. § 9607(l), to secure payment of costs incurred and to be incurred by EPA in connection with the Erie Coke Superfund Site (“Site”). A certified mail delivery receipt indicates that EPA’s December 2020 Notice of Intent was delivered to the above-referenced address on January 26, 2021. However, due to mail delivery issues, EPA was not able to locate this receipt until April 23, 2021. The December 2020 Notice of Intent and the signed certified mail return receipt are contained in Enclosure 2. EPA has not received from you any response to or request to meet with EPA with regard to the December 2020 Notice of Intent Letter. Prior to perfecting its Superfund Lien on the Properties, EPA is sending you this Notice of Intent to Perfect a Superfund Lien in order to confirm that EPA has updated the Lien Notice that was included in the December 2020 Notice of Intent, to clarify the deed descriptions for the referenced Properties and to reflect that EPA response costs through March 18, 2021 are \$1,043,369.08. *See* proposed Lien Notice, which is included as Enclosure 3 to this letter.

EPA has performed response actions at the Site, including the Properties, pursuant to Section 104(a) of CERCLA, 42 U.S.C. § 9604(a). The land records of Erie County, Pennsylvania, indicate that ECC currently owns the Properties. The lien that EPA intends to perfect against the Properties arises under Section 107(l) of CERCLA, 42 U.S.C. § 9607(l). The

¹ As of the date of this letter EPA has no information indicating that Erie Coke Corporation is represented by counsel in this matter. If this is not accurate please provide this letter to Erie Coke Corporation’s counsel as soon as possible.

lien is intended to secure payment, to the United States, of costs and damages for which ECC, as an owner of the Site, is potentially liable to the United States under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a).

Under Sections 107(a) and 101(9) of CERCLA, 42 U.S.C. §§ 9607(a) and 9601(9), a person that currently owns any “facility,” including a site or area where a hazardous substance has been deposited, stored, disposed of, placed, or otherwise come to be located, may be liable for all costs of removal or remedial action at the facility. EPA has determined that a release or threat of release of hazardous substances from the Site into the environment has occurred within the meaning of Sections 101(8), (14), and (22) of CERCLA, 42 U.S.C. §§ 9601(8), (14), and (22), and has incurred costs in performing a “response action” within the meaning of Section 101(25) of CERCLA, 42 U.S.C. § 9601(25).

EPA has a reasonable basis to believe that the statutory conditions for perfecting a CERCLA § 107(l) lien are satisfied. Each of the Properties is a “facility” within the meaning of Section 101(9) of CERCLA, 42 U.S.C. § 9601(9); EPA has reason to believe that ECC currently owns the Properties and is accordingly a liable person pursuant to Section 107 of CERCLA, 42 U.S.C. § 9607; the Properties are subject to or affected by a removal or remedial action; and costs have been incurred by the United States with respect to a response action at the Properties.

The lien arises at the time that costs are first incurred by the United States with respect to a site or the time that the owner is provided with written notice of potential liability, whichever occurs later. The lien continues until the liability for the costs is satisfied or until the liability for the costs becomes unenforceable through operation of the statute of limitations in Section 113 of CERCLA, 42 U.S.C. § 9613. EPA issued a Notice of Potential Liability (“GNL”) to ECC, and a copy to Paul A. Saffrin, Chief Executive Officer of ECC, by certified letters dated August 5, 2020. The GNL was delivered to ECC on August 21, 2020, and to Mr. Saffrin on August 19, 2020. Therefore, the lien that EPA seeks to perfect on the Properties arose no later than August 21, 2020 by operation of law. ECC may avoid the perfection of a lien upon the Properties by paying all costs and damages associated with the Site.

EPA has established a Lien Filing Record consisting of documents relating to its decision to perfect a lien. An index of the Lien Filing Record is included as Enclosure 4 to this letter. The Lien Filing Record is kept at the EPA Region III offices and may be made available electronically upon request by arrangement with:

After thirty (30) calendar days from the date you receive this letter, EPA intends to file a Notice of Lien with the Office of the Recorder of Deeds in Erie County, Pennsylvania. A draft of the notice EPA intends to file is included as Enclosure 3 to this letter. The effect of this filing is to establish a priority for the encumbrance on the Properties.

You may, within thirty (30) calendar days from the date you receive this letter, (1) notify EPA in writing via email if you believe that EPA's information is in error, (2) submit via email any information or documents relevant to the issues raised by this letter,² and/or (3) request via email to meet with a neutral EPA official to present any information that indicates that EPA does not have a reasonable basis to perfect a lien on the Properties based on the statutory requirements. You should describe in your request your reasons for believing that EPA does not have a reasonable basis to perfect a lien. Any written submission or request for a meeting should reference the Erie Coke Superfund Site, should be sent by email to the above-referenced EPA attorney, and may include documents or information that you believe supports your contentions.

If EPA receives a submission or a request for a meeting within 30 calendar days of your receipt of this letter, EPA will review your submission or request for a meeting. If EPA agrees, based on your submission, that it does not have a reasonable basis to perfect a lien on the Properties, EPA will not perfect its lien and will so notify you. If EPA disagrees, the submission or request, together with the Lien Filing Record, will be referred to a neutral EPA official selected for the purpose of reviewing the submission or for conducting the meeting.

If you have requested an opportunity to meet, a meeting will be scheduled. You may choose to attend this meeting via a telephone conference. EPA will be represented by its enforcement staff, including a representative from the Office of Regional Counsel. You may be represented by counsel at this meeting. The meeting will be held before a neutral EPA official. This will be an informal meeting in which you may provide EPA with information as to why EPA's position requires reconsideration. The meeting will not be conducted using rules of evidence or formal administrative or judicial procedures. The sole issue at the meeting will be whether EPA has a reasonable basis to perfect a lien based upon Section 107(l) of CERCLA, 42 U.S.C. § 9607(l).

After reviewing your submission, or conducting a meeting if one is requested, the neutral EPA official will issue a recommended decision based upon the Lien Filing Record, any submission, and any information provided at the meeting. The recommended decision will state whether EPA has a reasonable basis to perfect a lien and will be forwarded to an EPA official authorized to perfect liens. You will be furnished with a copy of the recommended decision and notified of the Agency's action.

Neither ECC nor EPA waives, or is prohibited from asserting, any claims or defenses in any subsequent legal or administrative proceeding by submitting information, requesting a meeting, or issuing a recommended decision regarding EPA's basis to perfect a lien.

² If you are unable to provide via email any information or documents relevant to the issues raised by this letter, please contact EPA Sr. Assistant Regional Counsel Joan A. Johnson at (215) 814-2619, or johnson.joan-a@epa.gov in order to arrange for delivery of hard copies of this submission.

If you have any question pertaining to this letter, please contact EPA Sr. Assistant Regional Counsel Joan A. Johnson at (215) 814-2619, or johnson.joan-a@epa.gov.

Re: Erie Coke Superfund Site, Erie, Pennsylvania: Notice of Intent to Perfect Federal Superfund Lien; Opportunity To Be Heard

Dear Mr. Saffrin:¹

This letter informs Erie Coke Corporation (“ECC”) that the United States Environmental Protection Agency (“EPA” or “Agency”) intends to perfect a lien on real properties owned by ECC located at or near 925 E. Bay Drive, Erie, Pennsylvania, the legal descriptions of which are contained in Enclosure 1 to this letter (the “Properties”). The Erie Coke Superfund Site (“Site”) is located on the Properties and other properties. EPA has performed response actions at the Site, including the Properties, pursuant to Section 104(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (“CERCLA”), 42 U.S.C. § 9604(a). The land records of Erie County, Pennsylvania, indicate that ECC currently owns the Properties. The lien that EPA intends to perfect against the Properties arises under Section 107(l) of CERCLA, 42 U.S.C. § 9607(l). The lien is intended to secure payment, to the United States, of costs and damages for which ECC, as an owner of the Site, is potentially liable to the United States under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a).

Under Sections 107(a) and 101(9) of CERCLA, 42 U.S.C. §§ 9607(a) and 9601(9), a person that currently owns any “facility,” including a site or area where a hazardous substance has been deposited, stored, disposed of, placed, or otherwise come to be located, may be liable for all costs of removal or remedial action at the facility. EPA has determined that a release or threat of release of hazardous substances from the Site into the environment has occurred within the meaning of Sections 101(8), (14), and (22) of CERCLA, 42 U.S.C. §§ 9601(8), (14), and (22), and has incurred costs in performing a “response action” within the meaning of Section 101(25) of CERCLA, 42 U.S.C. § 9601(25).

¹ As of the date of this letter EPA has no information indicating that Erie Coke Corporation is represented by counsel in this matter. If this is not accurate please provide this letter to Erie Coke Corporation’s counsel as soon as possible.

EPA has a reasonable basis to believe that the statutory conditions for perfecting a CERCLA § 107(l) lien are satisfied. Each of the Properties is a “facility” within the meaning of Section 101(9) of CERCLA, 42 U.S.C. § 9601(9); EPA has reason to believe that ECC currently owns the Properties and is accordingly a liable person pursuant to Section 107 of CERCLA, 42 U.S.C. § 9607; the Properties are subject to or affected by a removal or remedial action; and costs have been incurred by the United States with respect to a response action at the Properties.

The lien arises at the time that costs are first incurred by the United States with respect to the site or the time that the owner is provided with written notice of potential liability, whichever occurs later. The lien continues until the liability for the costs is satisfied or until the liability for the costs becomes unenforceable through operation of the statute of limitations in Section 113 of CERCLA, 42 U.S.C. § 9613. EPA issued a Notice of Potential Liability (“GNL”) to ECC, and a copy to Paul A. Saffrin, Chief Executive Officer of ECC, by certified letters dated August 5, 2020. The GNL was delivered to ECC on August 21, 2020, and to Mr. Saffrin on August 19, 2020. Therefore, the lien that EPA seeks to perfect on the Properties arose no later than August 21, 2020 by operation of law. ECC may avoid the perfection of a lien upon the Properties by paying all costs and damages associated with the Site.

EPA has established a Lien Filing Record consisting of documents relating to its decision to perfect a lien. An index of the Lien Filing Record is included as Enclosure 2 to this letter. The Lien Filing Record is kept at the EPA Region III offices and may be made available electronically upon request by arrangement with:

After forty-five (45) calendar days from the date you receive this letter, EPA intends to file a Notice of Lien with the Office of the Recorder of Deeds in Erie County, Pennsylvania. A draft of the notice EPA intends to file is included as Enclosure 3 to this letter. The effect of this filing is to establish a priority for the encumbrance on the Properties.

You may, within forty-five (45) calendar days from the date you receive this letter, (1) notify EPA in writing via email if you believe that EPA's information is in error, (2) submit via email any information or documents relevant to the issues raised by this letter,² and/or (3) request via email to meet with a neutral EPA official to present any information that indicates that EPA does not have a reasonable basis to perfect a lien on the Properties based on the statutory

² If you are unable to provide via email any information or documents relevant to the issues raised by this letter, please contact EPA Sr. Assistant Regional Counsel Joan A. Johnson at (215) 814-2619, or johnson.joan-a@epa.gov in order to arrange for delivery of hard copies of this submission.

requirements. You should describe in your request your reasons for believing that EPA does not have a reasonable basis to perfect a lien. Any written submission or request for a meeting should reference the Erie Coke Superfund Site, should be sent by email to the above-referenced EPA attorney, and may include documents or information that you believe supports your contentions.

If EPA receives a submission or a request for a meeting within 45 calendar days of your receipt of this letter, EPA will review your submission or request for a meeting. If EPA agrees, based on your submission, that it does not have a reasonable basis to perfect a lien on the Properties, EPA will not perfect its lien and will so notify you. If EPA disagrees, the submission or request, together with the Lien Filing Record, will be referred to a neutral EPA official selected for the purpose of reviewing the submission or for conducting the meeting.

If you have requested an opportunity to meet, a meeting will be scheduled. You may choose to attend this meeting via a telephone conference. EPA will be represented by its enforcement staff, including a representative from the Office of Regional Counsel. You may be represented by counsel at this meeting. The meeting will be held before a neutral EPA official. This will be an informal meeting in which you may provide EPA with information as to why EPA's position requires reconsideration. The meeting will not be conducted using rules of evidence or formal administrative or judicial procedures. The sole issue at the meeting will be whether EPA has a reasonable basis to perfect a lien based upon Section 107(l) of CERCLA, 42 U.S.C. § 9607(l).

After reviewing your submission, or conducting a meeting if one is requested, the neutral EPA official will issue a recommended decision based upon the Lien Filing Record, any submission, and any information provided at the meeting. The recommended decision will state whether EPA has a reasonable basis to perfect a lien and will be forwarded to an EPA official authorized to perfect liens. You will be furnished with a copy of the recommended decision and notified of the Agency's action.

Neither ECC nor EPA waives, or is prohibited from asserting, any claims or defenses in any subsequent legal or administrative proceeding by submitting information, requesting a meeting, or issuing a recommended decision regarding EPA's basis to perfect a lien.

If you have any question pertaining to this letter, please contact EPA Sr. Assistant Regional Counsel Joan A. Johnson at (215) 814-2619, or johnson.joan-a@epa.gov.

NOTICE OF LIEN

Notice is hereby given by the United States Environmental Protection Agency (EPA), on behalf of the United States, that the United States holds a lien on the properties described above. Pursuant to Section 107(l) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA), 42 U.S.C. § 9607(l), a lien is created in favor of the United States upon all real property and rights to such property which belong to persons liable for costs and damages pursuant to 42 U.S.C. § 9607(a) and which property is subject to or affected by a removal or remedial action. This lien arises either at the time the United States first incurs costs with regard to a CERCLA response action or when the person(s) liable for such costs and damages is provided with written notice of potential liability, whichever is later. *See* 42 U.S.C. § 9607(l)(2). The lien continues until liability for costs and damages (or any decree or judgment against the person arising out of such liability) is satisfied or becomes unenforceable through operation of the applicable statute of limitations contained in Section 113 of CERCLA, 42 U.S.C. § 9613. Because response activities are ongoing, the amount covered by the lien will increase. The documents which support the placement of this lien can be found in the "Lien Filing Record." The Lien Filing Record is available for review at the offices of EPA Region III at the address noted above or electronically upon request.

Authority to file lien notices was delegated to the Administrator of EPA on January 29, 1987 by Executive Order 12580, 52 Federal Register 2923 (Jan. 29, 1987), and further delegated

to the Regional Administrator on September 13, 1987, by EPA Delegation No. 14-26. This authority was further re-delegated by the Regional Administrator of EPA Region III to the Regional Counsel on April 15, 2019, by EPA Region III Delegation No. 14-26.

DATE NOTICE OF LIABILITY GIVEN: August 5, 2020
DATE COSTS WERE FIRST INCURRED: April 17, 2020
EPA COSTS THROUGH March 18, 2021 \$1,043,369.08
(This amount will increase as more costs are expended.)

The potential liability associated with the Site is joint and several. There may be other potentially responsible parties associated with the Site. The necessity or extent of future work at the Site is undetermined as of this date. Costs may continue to be incurred at this Site, and the value of the United States' lien on the subject property may change. EPA is entitled to recover costs that are not inconsistent with the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) at 40 C.F.R. Part 300; *see* Section 107(a) of CERCLA, 42 U.S.C. § 9607(a).
