Statutory and Regulatory Background

9. Section 103(a) of CERCLA, 42 U.S.C. § 9603(a), requires any person in charge of a facility to immediately notify the National Response Center (NRC) as soon as that person has knowledge of any release of a hazardous substance from the facility in an amount equal to or greater than the reportable quantity of the hazardous substance.

10. Section 103(a) of CERCLA, 42 U.S.C. § 9603(a), and Section 304 of EPCRA, 42 U.S.C. § 11004, provide a mechanism to alert federal, state, and local agencies that a response action may be necessary to prevent deaths or injuries to emergency responders, facility personnel and the local community. A delay or failure to notify could seriously hamper the governments' response to an emergency and pose serious threats to human health and the environment.

11. Section 304(a)(1) of EPCRA, 42 U.S.C. § 11004(a)(1), requires that the owner or operator of a facility must immediately provide notice, as described in Section 304(b) of EPCRA, 42 U.S.C. § 11004(b), if a release of an extremely hazardous substance in quantities equal to or greater than a reportable quantity occurs from a facility at which hazardous chemicals are produced, used or stored and such release requires notice under Section 103(a) of CERCLA, 42 U.S.C. § 9603(a).

12. Under Section 304(b) of EPCRA, 42 U.S.C. § 11004(b), notice required under Section 304(a) of EPCRA, 42 U.S.C. § 11004(a), must be given immediately after the release by the owner or operator of a facility to the community emergency coordinator for the local emergency planning committee (LEPC) for any area likely to be affected by the release and to the state emergency response commission (SERC) of any state likely to be affected by a release.

13. Section 304(c) of EPCRA, 42 U.S.C. § 11004(c), requires that, as soon as practicable after a release which requires notice under Section 304(a) of EPCRA, 42 U.S.C. § 11004(a), the owner or operator of the facility must provide written follow-up emergency notice setting forth and updating the information required under Section 304(b), 42 U.S.C. § 11004(b).

14. Under Section 311(e) of EPCRA, 42 U.S.C. § 11021(e), with certain exceptions, the term “hazardous chemical” has the meaning given such term by 29 C.F.R. § 1910.1200(c).

15. Under 29 C.F.R. § 1910.1200(c), a hazardous chemical is any chemical which is classified as a physical or health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified.

16. Section 109(b) of CERCLA, 42 U.S.C. § 9609(b), Section 325(b)(2) of EPCRA, 42 U.S.C. § 11045(b)(2), and 40 C.F.R. Part 19 authorize U.S. EPA to assess a civil penalty of up to \$67,544 per day of violation, for violations of CERCLA Section 103 and EPCRA Section 304, that occurred after November 2, 2015, and for which penalties are assessed on or after January 6, 2023, or other amounts as penalty levels may be later adjusted at 40 C.F.R. Part 19.
