7. Respondent admits the jurisdictional allegations in this CAFO and neither admits nor denies the factual allegations in this CAFO.

Statutory and Regulatory Background

9. Section 311 of EPCRA, 42 U.S.C. § 11021, and its implementing regulations at 40 C.F.R. Part 370, require the owner or operator of a facility, which is required by the Occupational Safety and Health Act (OSHA) to prepare or have available a material safety data sheet (MSDS) for a hazardous chemical, to submit to the state emergency response commission (SERC), community emergency coordinator for the local emergency planning committee (LEPC), and the fire department with jurisdiction over the facility an MSDS for each such hazardous chemical present at the facility at any one time in an amount equal to or greater than 10,000 pounds, and for each extremely hazardous chemical present at the facility in an amount equal to or greater than 500 pounds, or the threshold planning quantity (TPQ), whichever is lower, or to submit a list of such chemicals. The owner or operator must submit the required MSDS or list within three months after the owner or operator is first required to have the MSDS available or after the hazardous chemical requiring an MSDS first becomes present at the facility in an amount exceeding the threshold level.

10. Section 312(a) of EPCRA, 42 U.S.C. § 11022(a), and its implementing regulations at 40 C.F.R. Part 370 require the owner or operator of a facility, which is required by the OSHA

to prepare or have available an MSDS for a hazardous chemical, to prepare and submit to the SERC, community emergency coordinator for the LEPC, and fire department with jurisdiction over the facility by March 1, 1988, and annually thereafter on March 1, an emergency and hazardous chemical inventory form (Tier 1 or Tier II as described in 40 C.F.R. Part 370). The form must contain the information required by Section 312(d) of EPCRA, covering all hazardous chemicals present at the facility at any one time during the preceding year in amounts equal to or exceeding 10,000 pounds and all extremely hazardous chemicals present at the facility at any one time in amounts equal to or greater than 500 pounds or the threshold planning quantity designated by U.S. EPA at 40 C.F.R. Part 355, Appendices A and B, whichever is lower.

11. Section 311 of EPCRA, 42 U.S.C. § 11021, and Section 312(a) of EPCRA, 42 U.S.C. § 11022(a), assist state and local committees in planning for emergencies and make information on chemical presence and hazards available to the public. A delay in reporting could result in harm to human health and the environment.

12. Under 29 C.F.R. § 1910.1200(b)(1), all employers are required to provide information to their employees about the hazardous chemicals to which they are exposed including, but not limited to, MSDS.

The Debt Collection Improvement Act of 1996, 31 U.S.C. § 3701, and its implementing regulations at 40 C.F.R. Part 19 increased the statutory maximum penalty to \$11,000 per day of violation for EPCRA Section 311 violations that occur on or after January 31, 1997.

15. Section 325(c)(1) of EPCRA, 42 U.S.C. § 11045(c)(1), authorizes U.S. EPA to assess a civil penalty of up to \$25,000 for each EPCRA Section 312 violation. The Debt Collection Improvement Act of 1996, 31 U.S.C. § 3701, and its implementing regulations at 40 C.F.R. Part 19 increased the statutory maximum penalty to \$27,500 per day of violation that occurred from January 31, 1997 through March 15, 2004, and to \$32,500 per day of violation for violations that occurred after March 15, 2004.
