2. In accordance with 40 C.F.R. §§ 22.13(b) and 22.18(b)(2) and (3) of the Consolidated Rules of Practice, Complainant hereby simultaneously commences and resolves this administrative proceeding.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

11. In accordance with 40 C.F.R. §§ 22.13(b) and 22.18(b)(2) and (3) of the Consolidated Rules of Practice, Complainant alleges and adopts the Findings of Fact and Conclusions of Law set forth immediately below.
12. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992 (The "Act"), 42 U.S.C §§ 4851 to 4586, to address the need to control exposure to lead-based paint hazards. The Act amended TSCA by adding *Subchapter IV— Lead Exposure Reduction*, TSCA Section 401 to 412, 15 U.S.C. §§ 2681 to 2692.
13. Section 402(c) of TSCA 15 U.S.C. § 2682, required the Administrator of EPA to promulgate regulations for the certification of individuals engaged in renovation or remodeling activities in target housing, public buildings built before 1978, and commercial buildings.
14. Under the RRP Rule, each person who performs for compensation, a renovation of target housing or a child-occupied facility must be trained and certified by an EPA accredited training provider to conduct renovation, remodeling and/or painting activities in target housing and/or child-occupied facilities or must be employed by an EPA-certified renovation firm.
15. Pursuant to 40 C.F.R. § 745.83, the term "firm" means "a company, partnership,

corporation, sole proprietorship or individual doing business, association or other business entity; a Federal, State, Tribal or local government agency; or a nonprofit organization.”

16. Pursuant to 40 C.F.R. § 745.83, the term “renovation” means “the modification of any existing structure, or portion thereof that results in the disturbance of painted surfaces, unless that activity is performed as part of an abatement as defined by 40 C.F.R. § 745.223.”
17. Pursuant to Section 401(17) of TSCA, 15 U.S.C. § 2681(17), the term “target housing” means “any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child who is less than 6 years of age resides or is expected to reside in such housing) or any 0-bedroom dwelling.”
18. Respondent, at all times relevant to the violations alleged in this Consent Agreement, was a “firm” who performed a “renovation,” as those terms are defined at 40 C.F.R. § 745.83, at the property located at 147 Pennsylvania Ave., Westminster, MD 21157 (“Renovation Property”).
19. The Renovation Property was constructed prior to 1978 and is “target housing” as that term is defined in Paragraph 17 above.
20. Respondent entered into a renovation contract with the owner of the Renovation Property on September 18, 2019 for the purpose of performing a “renovation for compensation” pursuant to 40 C.F.R. § 745.82(a) at the Renovation Property. The EPA on-site inspection at the Renovation Property on November 13, 2019 confirmed that the “renovation for compensation” was taking place at that time.
21. Respondent engaged with a “person” and “firm” known as J.P. Stone & Construction, LLC (“J.P. Stone”), owned by Eugene Molina, as a subcontractor to perform “renovation for compensation” activities as these terms are defined at 40 C.F.R. § 745.83, including scraping, prep for painting, and exterior painting at the Renovation Property.
22. J.P. Stone was not an EPA-certified firm pursuant to 40 C.F.R. § 745.89 at the time of the “renovation for compensation” performed at the Renovation Property on or around November 13, 2019. Follow up records showed that J.P. Stone did not receive its EPA firm certification until December 5, 2019.
23. The above referenced “renovation for compensation” did not involve a renovation in target housing or child-occupied facility in which:
 - (1) “a written determination ha[d] been made by an inspector or risk assessor ... that the components affected by the renovation are free of paint or other surface coatings that contain lead equal to or in excess of 1.0 milligrams/per square centimeter ... ,” as provided at 40 C.F.R. § 745.82(a)(1);

- (2) “a certified renovator, using an EPA recognized test kit ... , has tested each component affected by the renovation and determined that the components are free of paint or other surface coatings that contain lead equal to or in excess of 1.0 milligrams/per square centimeter ... ,” as provided at as provided at 40 C.F.R. § 745.82(a)(2); or
- (3) “a certified renovator has collected a paint chip sample from each painted component affected by the renovation and a laboratory recognized by EPA ... has determined that the samples are free of paint or other surface coatings that contain lead equal to or in excess of 1.0 milligrams/per square centimeter ... ,” as provided at 40 C.F.R. § 745.82(a)(3).
24. EPA received a tip/complaint from the Maryland Department of the Environment (“MDE”) on November 4, 2019 alleging Respondent’s noncompliance with the RRP Rule. The tip/complaint indicated that MDE observed Respondent following unsafe work practices while performing a renovation for compensation at the Renovation Property. MDE submitted a copy of its report and pictures to support the allegations.
25. In response to the tip/complaint, the Complainant conducted an on-site inspection at the Renovation Property on November 13, 2019 to observe renovation activities and Respondent’s level of compliance with the RRP Rule’s work practice standards (“Site Inspection”). Later that same morning, Complainant conducted a records inspection at Respondent’s office to further determine Respondent’s level of compliance with the RRP Rule (“Records Inspection”).
26. During the November 13, 2019 Site Inspection, the EPA Inspector took 13 photos of the Renovation property which provided proof of three work practice violations including no posted signage clearly defining the work area as required under 40 C.F.R. § 745.85(1), no plastic sheeting or other material extending 10 feet beyond the perimeter of surfaces undergoing renovation as required under 40 C.F.R. § 745.85(a)(2)(ii)(C), and no vertical containment or equivalent extra precautions in containing the work area as required under 40 C.F.R. § 745.85(a)(2)(ii)(D).
27. During the November 13, 2019 Records Inspection, Respondent stated that he was not an EPA-certified firm as required under 40 C.F.R. § 745.89. Respondent also acknowledged their subcontractor, J.P. Stone, was not a certified renovator assigned to the renovation at the Renovation Property as required under 40 C.F.R. § 745.89(d)(2).
28. Respondent was not able to produce to the EPA Inspector any proof of written acknowledgement of receipt of EPA’s *Renovate Right* Pamphlet from the owners of the Renovation Property pursuant to 40 C.F.R. § 745.84(a)(1).
