UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION 7

Received by
EPA Region 7
Hearing Clerk

In the Matter of)
American Packaging Corporation 103 W. Broad Street) Docket No.: RCRA-07-2023-0080
Story City, Iowa 50248) EXPEDITED SETTLEMENT
EPA ID NO.: IAR000005710) AGREEMENT AND FINAL ORDER)
Respondent.	_)

EXPEDITED SETTLEMENT AGREEMENT

- The U.S. Environmental Protection Agency ("EPA") is authorized to enter into this Expedited Settlement Agreement ("Agreement" or "ESA") pursuant to Section 3008(a) of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6928(a), and 40 C.F.R. § 22.13(b).
- 2) The EPA has provided the State of Iowa with notice of the referenced violations of Subtitle C of RCRA as required by Section 3008(a)(2).
- American Packaging Corporation ("Respondent") is the owner or operator of the facility located at 103 W. Broad Street, Story City, Iowa 50248 ("Facility"). The EPA inspected the Facility on May 24, 2022. As a result of the findings during the inspection and additional investigation, the EPA alleges that Respondent violated the following requirements of the RCRA hazardous waste management program:
 - a. 40 C.F.R. § 262.17(a)(6) 262.262(b) requires that a large quantity generator of hazardous waste prepare a Quick Reference Guide. During the inspection, the inspector reviewed the facility's Contingency Plan and noted that the facility had last updated their contingency plan on February 14, 2022. The contingency plan appeared to meet all content requirements except for inclusion of a Quick Reference Guide. The inspector asked Mr. Hageman if Respondent had created a Quick Reference Guide for the RCRA Contingency Plan and he stated that a Quick Reference Guide had not been created.
 - b. 40 C.F.R. § 262.15(a)(4) requires that a generator must keep a container holding hazardous waste closed at all times during accumulation, except when adding, removing, or consolidating waste; or when temporary venting of a container is necessary.

During the inspection, the inspector observed 55-gallon satellite accumulation containers (SACs) of hazardous waste adhesive in the Wash Room and areas WH-2,

- LAM-2, LAM-3, and LAM-4. Each container held approximately 15 to 25 gallons of waste. The lids on the SACs were not completely closed.
- c. 40 C.F.R. § 262.17(a)(5)(i)(c) requires that a large quantity generator must mark or label its containers with the date upon which each period of accumulation begins and is clearly visible for inspection on each container. During inspection of the hazardous waste container accumulation area in the Ink Room, the inspector observed that some of the labels on hazardous waste accumulation containers were not turned outward to allow inspection of the accumulation start dates.
- d. 40 C.F.R. § 273.15(c) requires that a handler of universal waste must be able to demonstrate how long universal waste has accumulated at its site since being generated or received from another handler. During the inspection, the inspector observed that one of three universal waste lamp accumulation containers was marked with an accumulation date December 7, 2017. The inspector asked Mr. Hageman how long the UWLs had been accumulating. He stated that the containers have been there since April 8, 2022. The inspector asked Mr. Hageman about the date of December 7, 2017, and he stated that the container has been reused and personnel forgot to remove the old date. The other two UWL accumulation containers were undated.
- e. 40 C.F.R. § 273.14(e) requires that a handler of universal waste must ensure each lamp or a container or package in which such lamps are contained be labeled or marked clearly with one of the following phrases: "Universal Waste Lamp(s)," or "Waste Lamp(s)," or "Used Lamp(s)."During the inspection, the inspector observed that the universal waste lamp accumulation containers were not labeled with the words "universal waste lamps," or "waste lamps," or "used lamps."
- f. 40 C.F.R. § 262.17(a)(6)—262.252(b) requires that a large quantity generator comply with the standards in subpart M, Preparedness, Prevention and Emergency Procedures for Large Quantity Generators. The inspector asked Mr. Bauer how he would summon emergency assistance if needed. Mr. Bauer stated that the nearest telephone was approximately 75 feet away and in a separate room. 40 C.F.R. § 262.252(b) requires that a device, such as a telephone (immediately available at the scene of operations) or a hand-held two-way radio, capable of summoning emergency assistance from local police departments, fire departments, or state or local emergency response teams be available at the facility. The facility responded by stating that "It was observed that our Ink Leads had no way of summoning emergency assistance if need be. As a short term immediate corrective action we started requiring Leads to carry an intrinsically safe radio with them while working back in our Hazardous Waste Storage area. EHS and Engineering are looking at options to have a 3rd party come onsite to install an intrinsically safe button to push that will tie into our overhead paging system to notify employees of an emergency."
- g. 40 C.F.R. § 262.41(a) requires that a generator who is a large quantity generator for at least one month of a reporting year who ships any hazardous waste off-site to a

treatment, storage or disposal facility within the United States must complete and submit EPA Form 8700-13 A/B to the Regional Administrator by March 1 of the following even-numbered year and must cover generator activities during the previous year. According to Mr. Hageman, the facility changed the caustic wash process in September 2021. The former material used for caustic wash was Paintex 1967 and was considered to be a D001 characteristic hazardous waste when spent. However, per the 2021 facility waste log, the current caustic wash waste was determined by the facility to be a D002 characteristic hazardous waste when spent. The 2021 Biennial Report does not include a D002 characteristic hazardous waste.

- In determining the amount of the penalty to be assessed, EPA has taken into account the factors specified in Section 3008 of RCRA, 42 U.S.C. § 6928. After considering these factors, EPA has determined and Respondent agrees that settlement of this matter for a civil penalty of eight thousand, seven hundred and fifty dollars (\$8,750.00) is in the public interest.
- Respondent shall pay the penalty within thirty (30) days of the effective date of the Final Order. Such payment shall identify Respondent by name and docket number and shall be by certified or cashier's check made payable to the "United States Treasury" and sent to:

U.S. Environmental Protection Agency Fines and Penalties Cincinnati Finance Center PO Box 979077 St. Louis, Missouri 63197-9000

or by alternate payment method described at http://www.epa.gov/financial/makepayment.

A copy of the check or other information confirming payment shall simultaneously be emailed to the following:

Regional Hearing Clerk
R7 Hearing Clerk Filings@epa.gov; and

Milady Peters, Paralegal peters.milady@epa.gov.

In signing this Agreement, Respondent: (1) admits that Respondent is subject to RCRA and its implementing regulations; (2) admits that EPA has jurisdiction over Respondent and Respondent's conduct as alleged herein, (3) neither admits nor denies the factual allegations contained herein; (4) consents to the assessment of this penalty; (5) agrees to release funds held on deposit as payment to the EPA for the civil penalty upon final EPA approval of this Agreement; (6) waives the opportunity for a hearing to contest any issue of fact or law set forth herein; (7) waives its right to appeal the Final Order accompanying this Agreement pursuant to Section 3008(b) of RCRA; and (8) consents to

- electronic service of the filed ESA to the following email address: *chageman2@american packaging.com*. Respondent understands that the ESA will become publicly available upon filing.
- By its signature below Respondent certifies, subject to civil and criminal penalties for making a false submission to the United States Government, that: (1) the alleged violations have been corrected, and (2) it is presently in compliance with all requirements of RCRA, 42 U.S.C. § 6901 *et. seq.*, its implementing regulations, and any permit issued pursuant to RCRA.
- 9) The undersigned representative of Respondent certifies that he or she is fully authorized to enter the terms and conditions of this Consent Agreement and Final Order and to execute and legally bind Respondent to it.
- Full payment of the civil penalty shall only resolve Respondent's liability for federal civil penalties for the violations alleged herein. The EPA reserves the right to take any enforcement action with respect to any other past, present, or future violations of RCRA or any other applicable law.
- 11) The penalty specified herein shall represent civil penalties assessed by EPA and shall not be deductible for purposes of Federal, State and local taxes.
- 12) Each party shall bear its own costs and fees, if any.
- 13) This Agreement is binding on the parties signing below.

In the Matter of AMERICAN PACKAGING CORPORATION Docket No. RCRA-07-2023-0080

IT IS SO AGREED,
