

II. FINDINGS OF FACT AND CONCLUSIONS OF LAW

6. Respondent is a corporation organized under the laws of the State of Texas and as such, Respondent is a “person” as that term is defined at Section 502(5) of the Act, 33 U.S.C. § 1362(5), and 40 C.F.R. §§ 122.2 and 232.2.

7. On June 9, 2012, Respondent submitted a self-disclosure pursuant to EPA’s policy on “Incentives for Self-Policing: Discovery, Disclosure, Correction, and Prevention of Violations” (“Audit Policy”), 65 Fed. Reg. 19,618 (Apr. 11, 2000). The self-disclosure disclosed multiple violations of Section 404 of the Act. The self-disclosure is attached to this CAFO as Attachment A and is incorporated herein by reference.

8. In the self-disclosure, Respondent states that it discharged or caused the discharge of “dredged material” and/or “fill material” from “point sources” including heavy equipment in, on and to jurisdictional waters of the United States as those terms are defined in Section 502 of the Act, 33 U.S.C. § 1362, and 40 C.F.R. § 232.2. These discharges were caused by to Respondent’s oil and gas exploration and production activities in the State of Louisiana.

9. The discharged dredged material and fill material are considered “pollutants” as that term is defined at Section 502(6) of the Act, 33 U.S.C. § 1362(6).

10. Each piece of equipment used for the discharge(s) acted as a “point source” as that term is defined at Section 502(14) of the Act, 33 U.S.C. § 1362(14).

11. Under Section 301(a) of the Act, 33 U.S.C. § 1311(a), it is unlawful for any person to discharge a pollutant from a point source to waters of the United States, except with the authorization of, and in compliance with, a permit issued under the Act.

12. Under Section 404 of the Act, 33 U.S.C. § 1344, the Secretary of the Army, acting through the Chief of Engineers for the United States Army Corps of Engineers (“Corps”), is authorized to issue permits for the discharge of dredged or fill material into navigable waters of the United States.

13. At the time of the discharges, Respondent did not have a permit issued by the Corps authorizing the discharges.

14. Under Section 309(g)(1)(A) of the Act, 33 U.S.C. § 1319(g)(1)(A), the Administrator is authorized to assess a Class I or Class II civil penalty whenever, on the basis of any available information, the Administrator finds that a person has violated Section 301 of the Act, 33 U.S.C. § 1311.

15. Each unauthorized discharge by Respondent is a violation of Section 301(a) of the Act, 33 U.S.C. § 1311(a).

16. Under Section 309(g)(2)(B) of the Act, 33 U.S.C. § 1319(g)(2)(B), Respondent is liable for a civil penalty in an amount not to exceed \$11,000 per day for each day during which a violation continues, up to a maximum of \$157,500 for violations occurring before January 12, 2009, and a civil penalty in an amount not to exceed \$16,000 per day for each day during which a violation continues, up to a maximum of \$177,500 for violations occurring from January 12, 2009 through December 6, 2013.

17. EPA issued the Audit Policy to encourage regulated entities to voluntarily discover, promptly disclose and expeditiously correct violations of federal environmental requirements. As an incentive for regulated entities to participate in the Audit Policy's voluntary disclosure process, EPA may substantially reduce or eliminate the gravity-based component of civil penalties to be assessed for violations which are voluntarily disclosed in accordance with the conditions specified in the Audit Policy. EPA reserves the right to assess a civil or administrative penalty with regard to any economic benefit that may have been realized as a result of such violations, even in those instances when the disclosing entity has met all the conditions of the Audit Policy.

18. On March 27, 2015, EPA issued a Notice of Determination ("NOD") relating to Respondent's self-disclosure. In the NOD, EPA determined that Respondent met all of the conditions of the Audit Policy and qualified for elimination of gravity-based penalties for the disclosed violations. EPA also determined that Respondent obtained a significant economic

benefit through its violation of the Act. The NOD is attached to this CAFO as Attachment B and is incorporated herein by reference

19. The State of Louisiana was notified and given an opportunity to consult with EPA regarding the proposed assessment of an administrative penalty against Respondent.

20. EPA notified the public of the proposed CAFO and afforded the public forty (40) days to comment on the proposed penalty in accordance with 40 C.F.R. § 22.45. At the expiration of the notice period, EPA received no comments from the public.
