Re: Administrative Order Addendum
Kennington Springs Pipeline Public Water System
Docket No. SDWA-08-2011-0030
PWS ID #WY5601199

Dear Ms. White:

This letter is an addendum to the Administrative Order (Order) issued March 8, 2011, and amended on August 5, 2011, to Kennington Springs Pipeline, Inc. (Kennington). The purpose of this letter is to approve the plan and schedule emailed to the EPA on April 6, 2012, and supplemented on May 15, 2012, by Ernie Eaton, Kennington's operator. The plan and schedule shown below are hereby incorporated into the Order per paragraph 15 (page 3) of the Amended Order.

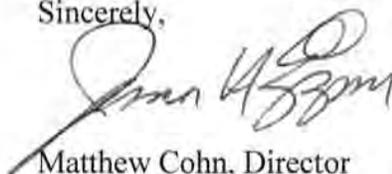

<u>Action</u>	<u>Completion Date</u>
Only licensed and trained operators will conduct sampling	September 2011 - ongoing
Prepare written operations and maintenance manual and provide a copy to each individual which responsibility for sampling or maintaining the water system. The manual shall cover daily operations and inspections, start-up and shutdown procedures, and response to equipment failure and other emergency conditions.	April 30, 2012 - ongoing
Drain/clean collection box and rebuild access hatch, clean bypass ditches to redirect water away from spring, install overflow pipe vent screens.	May 31, 2012

Please note that the EPA expects this approved schedule to be met. While not creating any right to an extension, the EPA in its discretion may consider granting an extension to compliance order deadlines under limited circumstances. If unexpected events occur that are beyond Kennington's control and that may require Kennington to request an extension of these deadlines, Kennington is responsible for notifying the EPA well in advance of the deadline dates. The EPA will not consider extending these deadlines without a clear justification for their need. Kennington must provide the following information in writing for any request for extensions: a description of the work that has been completed and the

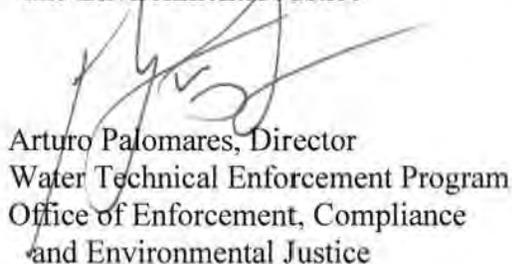

additional work that may not be completed by the deadline dates, the unexpected events that have occurred or may occur and how Kennington has attempted to foresee and use its best efforts to overcome these obstacles, and proposed new deadline dates with justification for the length of the proposed new deadlines.

Please contact Kathelene Brainich, Environmental Specialist, at (303) 312-6481 if you have any questions concerning this Addendum.

Sincerely,

Matthew Cohn, Director
