11 UNITED STATES
12 ENVIRONMENTAL PROTECTION AGENCY
13 REGION IX
14 75 HAWTHORNE STREET
15 SAN FRANCISCO, CA 94105

16 IN THE MATTER OF

17 Valimet, Inc.,

18 Respondent.

Docket No. EPCRA-09-2007-0021.

**VALIMET'S PREHEARING
INFORMATION EXCHANGE [40 C.F.R.
§22.19(a)]**

19 Respondent Valimet, Inc. ("Valimet"), by and through its attorneys Downey Brand LLP,
20 hereby provides its Prehearing Information Exchange pursuant to the Prehearing Order, served on
21 or about May 30, 2008, as follows:

22 **I. NAMES OF EXPECTED WITNESSES AND BRIEF NARRATIVE OF**
23 **EXPECTED TESTIMONY**

24 Respondent ("Valimet") intends to call David Oberholtzer and Sandy Young as fact
25 witnesses and James Strock and James Embree as expert witnesses.

26 Mr. David Oberholtzer is Valimet's Director of Corporate Services. His address and
27 phone number are: Valimet, Inc., 431 Sperry Rd., Stockton, CA 95206, (209) 982-4870. He will
28 testify as to his position at Valimet and his corresponding job duties and responsibilities;
Valimet's company background; Valimet's products and the properties of those products;

1 Valimet's environmental program; Valimet's quality control and safety activities; circumstances
2 surrounding the failure to timely file Emergency Planning Community Right-to-Know Act
3 ("EPCRA") Form Rs for 2001-2005; Valimet's subsequent filing of these Form Rs; and
4 corrective measures Valimet has taken to rectify the oversight and to ensure that it will not recur.

5 Ms. Sandy Young is Valimet's Accounting Manager. Her address and phone number are:
6 Valimet, Inc., 431 Sperry Rd., Stockton, CA 95206, (209) 982-4870. Ms. Young will testify as
7 to her position at Valimet; the number of Valimet's employees; and Valimet's annual sales.

8 Mr. James Strock's address and phone number are: James Strock & Co., 15029 North
9 Thompson Peak Parkway, Suite B-111-601, Scottsdale, AZ 85260, (480) 551-5108. Mr. Strock
10 will testify as to his background and experience; the Form Rs submitted by Valimet for years
11 2000 to 2006; EPA Toxic Release Inventory ("TRI") data; the history of EPA's policy and
12 enforcement of EPCRA section 313; and EPA policy regarding deterrence and enforcement.

13 Dr. James Embree's address and phone number are: AMEC Geomatrix Consultants, Inc.,
14 620 Coolidge Drive, Suite 185, Folsom, CA 95630, (916) 353-2151. Dr. Embree will testify as to
15 his background and experience; the toxicity of aluminum to humans and the environment; and the
16 criteria and standards for listing hazardous substances under EPCRA.

17 Valimet respectfully reserves the right to supplement its witness list upon adequate notice
18 to Complainant and the Presiding Administrative Law Judge.

19 **II. DOCUMENTS AND EXHIBITS TO BE INTRODUCED AT THE**
20 **HEARING**

21 Attached hereto are copies of all documents and exhibits intended to be introduced into
22 evidence:

- 23 • Resume for Mr. James Strock, marked as RX 1.
- 24 • Resume for Dr. James W. Embree, marked as RX 2.
- 25 • EPCRA penalties assessed by EPA in California over the last five years involving
26 between 5 and 15 penalty counts, and Enforcement Compliance History Online case
27 summaries in support thereof marked as RX 3.
- 28 • EPCRA penalties assessed by EPA nationwide over the last three years involving between
five and fifteen penalty counts, and Enforcement Compliance History Online case

summaries in support thereof, marked as RX 4.

- Job Description of Health and Safety Analyst hired to assist in regulatory compliance, marked as RX 5.
- In-house compliance calendar to provide advance notice of upcoming compliance and reporting deadlines, and ISO 9000 system updates which now include compliance and reporting requirements with semi-annual internal audits to ensure timely reporting and identification of additional resources to maintain compliance, marked as RX 6.
- Documents regarding General Background of Valimet, marked as RX 7.
- EPCRA Nationwide List of emissions of listed substances by companies in NAICS Code 331 (Primary Metals) category for year 2006, marked as RX 8.
- Documentation of the Threshold Limit Values For Chemical Substances in the Work Environment, pp. 46-49 (Sixth ed. 1991-92) issued by the American Conference of Governmental Industrial Hygienists, marked as RX 9.
- Table Summary of Valimet year end sales from 2001-2005, marked as RX 10.
- Valimet number of employees, marked as RX 11.
- Enforcement Response Policy for Section 313 of the Emergency Planning Community Right-to-Know Act (1986) and Section 6607 of the Pollution Prevention Act (1990), marked as RX 12.
- Copies of EPCRA Form Rs which Valimet filed for aluminum and copper compounds for the years 2000 through 2006, marked as RX 13.
- Joint Statement of Granta Y. Nakayama, Assistant Administrator of the Office of Enforcement and Compliance Assurance, and Donald Welsh, Regional Administrator for Region III of the U.S. Environmental Protection Agency, Before the Committee on Environment and Public Works, United States Senate (June 28, 2006), marked as RX 14.
- Material Safety Data Sheets for Aluminum Powder (Dec. 2006), marked as RX 15.
- Material Safety Data Sheet for Aluminum Bronze Powder (atomized) (Jan. 2007), marked as RX 16.
- 42 U.S.C. section 11023, marked as RX 17.
- New Jersey Department of Health and Senior Services, Hazardous Substance Fact Sheet – Aluminum (2000) (last rev. Feb. 2007), marked as RX 18.
- 52 Fed. Reg. 21152 (1987), marked as RX 19.
- Excerpt from U.S. E.P.A., Pesticides and Toxic Substances, Toxics in the Community

1 National and Local Perspectives: the 1989 Toxics Release Inventory National Report,
2 (Sept. 1991), marked as RX 20.

- 3 • New Jersey Statutes Annotated § 34:5A-4, marked as RX 21.
- 4 • New Jersey Statutes Annotated § 34:5A-5., marked as RX 22.
- 5 • Maryland Code, Labor and Employment, § 5-403, marked as RX 23.
- 6 • 29 Code of Federal Regulations § 1910.1200, marked as RX 24.

7 In addition, to the extent Complainant does not introduce them, Respondent intends to
8 introduce into evidence the following documents submitted by Complainant:

9 Agency for Toxic Substances and Disease Registry (ATSDR) Fact Sheet on Aluminum,
10 marked at CX 8.

11 Aluminum Health Guidelines, Occupational Safety and Health Administration, U.S.
12 Department of Labor, marked as CX 18.

13 Draft Toxicological Profile for Aluminum, ATSDR, U.S. Department of Health and
14 Human Services, dated September 2006, marked as CX 19.

15 Respondent has not attached these documents to its Prehearing Information Exchange, but
16 can provide such documents upon request.

17 Respondent respectfully reserves the right to supplement its exhibit list upon adequate
18 notice to Complainant and the Presiding Administrative Law Judge, if the need arises. In
19 addition, Respondent may request the Presiding Administrative Law Judge to take official notice
20 of appropriate matters within 40 C.F.R. § 22.22(f).

21 **III. LOCATION AND ESTIMATE OF TIME FOR THE HEARING**

22 Respondent respectfully suggests that the hearing be held in the city of Stockton,
23 California, as this is the location of Valimet's facility which the hearing concerns. In the
24 alternative, Valimet suggests that the Hearing be held in the city of Sacramento, California, as
25 Sacramento is the location of the closest major airport to Stockton. Valimet estimates that it will
26 need approximately six to eight hours to present its direct case. No translation services are
27 necessary.

28 ///

1 **IV. STATEMENTS OF ADMISSIONS**

2 3.(A) Valimet admits that it did not file on or before July 1, 2002 a Form R for aluminum
3 to EPA and to the State of California for aluminum processed in calendar year 2001.

4 3.(B) Valimet admits that it did not file on or before July 1, 2003 a Form R for aluminum
5 to EPA and to the State of California for aluminum processed in calendar year 2002.

6 3.(C) Valimet admits that it did not file on or before July 1, 2004 a Form R for aluminum
7 to EPA and to the State of California for aluminum processed in calendar year 2003.

8 3.(D) Valimet admits that it did not file on or before July 1, 2005 a Form R for aluminum
9 to EPA and to the State of California for aluminum processed in calendar year 2004.

10 3.(E) Valimet admits that it did not file on or before July 1, 2006 a Form R for aluminum
11 to EPA and to the State of California for aluminum processed in calendar year 2005.

12 3.(F) Valimet admits that it did not file on or before July 1, 2002 a Form R for copper
13 compounds to EPA and to the State of California for copper compounds processed in calendar
14 year 2001.

15 3.(G) Valimet admits that it did not file on or before July 1, 2003 a Form R for copper
16 compounds to EPA and to the State of California for copper compounds processed in calendar
17 year 2002.

18 3.(H) Valimet admits that it did not file on or before July 1, 2004 a Form R for copper
19 compounds to EPA and to the State of California for copper compounds processed in calendar
20 year 2003.

21 3.(I) Valimet admits that it did not file on or before July 1, 2005 a Form R for copper
22 compounds to EPA and to the State of California for copper compounds processed in calendar
23 year 2004.

24 3.(J) Valimet admits that it did not file on or before July 1, 2006 a Form R for copper
25 compounds to EPA and to the State of California for copper compounds processed in calendar
26 year 2005.

27 ///

28 ///

1 **V. STATEMENT REGARDING EPCRA FORM R SUBMISSIONS**

2 Attached hereto are copies of any and all EPCRA Form R forms which Valimet filed for
3 aluminum and copper compounds for the years 2001 through 2005, marked as Exhibit RX 13.

- 4 • On April 26, 2007, Valimet submitted the Form R for reporting year 2001 to EPA on
5 paper via certified mail, return receipt requested to:
6 TRI Data Processing Center
7 c/o Computer Sciences Corp.
8 Suite 150
9 8400 Corporate Drive
10 Landover, MD 20785-2294
- 11 • On April 26, 2007, Valimet submitted the same Form R for the 2001 reporting year on
12 paper to the Department of Toxic Substances Control (“DTSC”) via certified mail, return
13 receipt requested to:
14 Department of Toxic Substances Control
15 Office of Environmental Management
16 1001 I Street, 8th Floor
17 Sacramento, CA 95812
- 18 • On April 27, 2007, Valimet submitted the Form R for reporting year 2002 electronically
19 to EPA, via EPA’s Central Data Exchange (“CDX”). Valimet also submitted the report to
20 the DTSC on paper via certified mail, return receipt requested, to the same address as the
21 2001 report listed above.
- 22 • On April 27, 2007, Valimet submitted the Form R for reporting year 2003 electronically
23 to EPA, via CDX. Valimet also submitted the report to the DTSC on paper via certified
24 mail, return receipt requested, to the same address as the 2001 report listed above.
- 25 • On April 27, 2007, Valimet submitted the Form R for reporting year 2004 electronically
26 to EPA, via CDX. Valimet also submitted the report to the DTSC on paper via certified
27 mail, return receipt requested, to the same address as the 2001 report listed above.
- 28 • On April 25, 2007, Valimet submitted the Form R for reporting year 2005 electronically
to EPA, via CDX. Valimet also submitted the report to the DTSC on disc via the same
address as the 2001 report.

23 **VI. NARRATIVE STATEMENT IN SUPPORT OF AFFIRMATIVE**
24 **DEFENSES**

25 The Prehearing Order requires a narrative statement explaining in detail the factual and/or
26 legal bases for each of Valimet’s Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth,
27 Tenth, Twelfth, Thirteenth, and Fourteenth Affirmative Defenses, with citations to authorities and
28 a copy of any documents in support.

1 Valimet hereby waives the following affirmative defenses: Third Affirmative Defense
2 (Laches), Fourth Affirmative Defense (Statute of Limitations), Fifth Affirmative Defense
3 (Causation), Sixth Affirmative Defense (Independent, Intervening and/or Superseding Cause),
4 Seventh Affirmative Defense (Failure to State a Claim), Eighth Affirmative Defense (Failure to
5 Follow Own Policies), Ninth Affirmative Defense (Void for Vagueness as Applied), Tenth
6 Affirmative Defense (Equal Protection), Twelfth Affirmative Defense (Offset), Thirteenth
7 Affirmative Defense (Due Process) and Fourteenth Affirmative Defense (Mistake).

8 Valimet hereby provides a narrative statement explaining in detail the factual and/or legal
9 bases for Valimet's Second Affirmative Defense (Unlawful Listing).

10 **Second Affirmative Defense**

11 **(Unlawful Listing)**

12 The EPCRA statute states that the initial list of chemicals subject to Section 313 are those
13 chemicals listed in a document entitled, "Toxic Chemicals Subject to Section 313 of the
14 Emergency Planning and Community Right-to-Know Act of 1986." 42 U.S.C. § 11023(c); 52
15 Fed. Reg. 21153 (1987). In its notice of proposed rulemaking regarding creation of the initial list,
16 EPA stated that the initial list was compiled from lists created by the states of Maryland and New
17 Jersey under their right-to-know laws. 52 Fed. Reg. 21152 (1987). New Jersey and Maryland
18 based their lists "partly on toxicity information, but also on considerations of the amount
19 produced or used in the state, the regulatory status, the presence in the environment, and
20 professional judgment about potential hazards." EPA, Toxics in the Community National and
21 Local Perspectives: The 1989 Toxics Release Inventory National Report 80 (1991).

22 EPA took public comment on its proposed rulemaking and issued a final rule in 1988. 53
23 Fed. Reg. 4500 (1988). EPA acknowledged that it had received "many" comments suggesting
24 specific deletions from the original list of Section 313 chemicals but did not specify which
25 chemicals had been suggested for deletion by commentors. 53 Fed. Reg. 4518 (1988). EPA
26 stated that it chose not to modify the initial list at the time, but would use the comments to
27 develop its methodology for review of the list. These comments indicate that the initial Section
28 313 list was adopted without independent evaluation of the toxic properties of each of the listed

1 chemicals.

2 Section 313 contains standards for adding and removing chemicals from the list. 42
3 U.S.C. §11023(d)(2). A chemical may be added if there is sufficient evidence to establish that:

4 (1) The chemical is known to cause or can reasonably be anticipated to cause
5 significant adverse acute human health effects at concentration levels reasonably likely to
6 exist beyond facility boundaries as a result of continuous or recurring releases, *or*

7 (2) the chemical is known to cause or can be reasonably anticipated to cause
8 cancer, birth defects, serious reproductive, neurological, or genetic defects, or other
9 serious or irreversible chronic health effects in humans, *or*

10 (3) the chemical's toxic properties create a threat of a significant adverse effect on
11 the environment.

12 Aluminum fume and dust does not meet any of these criteria and if an evaluation against
13 these criteria had been conducted, aluminum fume and dust would not have been listed on the
14 Section 313 list. It is important to note that aluminum is non-toxic in common usage. Aluminum
15 is absorbed by the body only to a limited degree and is rapidly excreted. It is relied upon as a safe
16 and ubiquitous component of cans, cookware and water treatment. The FDA lists aluminum as
17 "GRAS" (generally regarded as safe) as a food additive. There is no LC50 or LD50 for
18 aluminum. There is no evidence that aluminum is carcinogenic, mutagenic or teratogenic.
19 Aluminum is not subject to SARA Title III emergency planning requirements. There is no
20 reportable quantity for aluminum releases. Aluminum powders are not subject to DOT
21 regulations. In sum, aluminum is one of the least toxic materials on the list of materials subject to
22 Form R reporting. Aluminum is the most common metal, and the third most common element, in
23 the earth's crust. For example, Central Valley soils are about 7.5% aluminum.

24 Documents that support this defense: RX 9, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, and
25 CX 8, 18, 19.

26 ///

27 ///

28 ///

1 **VII. STATEMENT REGARDING ABILITY TO PAY**

2 Not Applicable.

3 **VIII. STATEMENT REGARDING PENALTY REDUCTION**

4 Respondent takes the position that the proposed penalty should be reduced. The Presiding
5 Officer or Administrative Law Judge (“ALJ”) is required to consider the EPCRA Enforcement
6 Response Policy (“ERP”) pursuant to 40 C.F.R. § 22.27(b) (stating that the presiding officer must
7 consider any civil penalty guidelines or policies issued by EPA under the applicable statute.) But,
8 the ALJ is nonetheless free not to apply the guideline to the case at hand. “Administrative Law
9 Judges have ‘the discretion either to adopt the rationale of an applicable penalty policy where
10 appropriate or to deviate from it where circumstances warrant.’” *In re Clarksburg Casket Co.*,
11 1998 EPA ALJ Lexis 39, p. 27, citing *DIC Americas*, 6 E.A.D. 184, 189 (E.A.B. 1995).

12 In addition, decisions on penalties for violations of EPCRA Section 313 have looked at
13 the other EPCRA enforcement subsections, EPCRA Sections 325(b)(1)(C) and 325(b), for
14 guidance. *In re Troy Chemical Corp.*, 1999 EPA ALJ Lexis 7 p.12 citing *In re TRA Industries,*
15 *Inc.* 1996 EPCRA Lexis 1, p.6. Section 325(b)(1)(C) requires consideration of: "the nature,
16 circumstances, extent and gravity of the violation or violations and, with respect to the violator,
17 ability to pay, any prior history of such violations, the degree of culpability, economic benefit or
18 savings (if any) resulting from the violation, and such other matters as justice may require."
19 Section 325(b)(2) is similar, except that "effect on the ability to continue to do business" is
20 substituted for "economic benefit or savings."

21 Valimet anticipates relying on the following documents in support of its position that the
22 proposed penalty should be reduced:

23 1. Cooperation and compliance. Cooperation will largely be addressed through
24 testimony. Valimet came into compliance with EPRCA before a complaint was filed in this
25 matter. Documents that will be relied on are: RX 13.

26 2. Valimet's number of employees and annual sales are only slightly above the thresholds
27 set forth in the EPRCA ERP and, as a result, Valimet should be treated as a small company and
28 not a large company for penalty calculation purposes. RX 10, 11, 12.

1 3. Valimet has retained additional staff and adopted procedures to ensure that future
2 EPCRA violations do not occur. RX 5, 6.

3 4. The nature, circumstances, extent and gravity of the violations will largely be
4 addressed through testimony. However, the following documents will be relied upon: RX 8, 9,
5 15, 16, 17, 18, 19, 20, 21, 22, 23, 24.

6 5. No prior history of violations, lack of culpability, and lack of economic benefit
7 resulting from the violation will be addressed through testimony.

8 6. Other matters as justice may require. RX 3, 4, 12, 14. Depending on the amount of the
9 proposed penalty sought by EPA, Respondent may argue that the Eighth Amendment prohibits
10 the imposition of disproportionate penalties. See, *United States v. Bajakajian*, 524 U.S. 321
11 (1998); U.S. Const., Amdt. 8 ("Excessive bail shall not be required, nor excessive fines
12 imposed. . .")

13 **IX. STATEMENT REGARDING MOTION TO DISMISS**

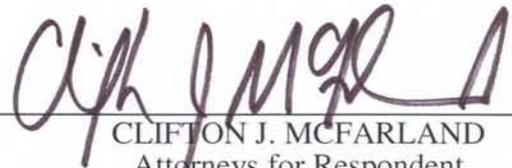

14 Respondent will not be filing a Motion to Dismiss the Complaint.

15 Valimet hereby states that it shall defend itself against the Complainant's charges by way
16 of direct evidence, rebuttal evidence, and cross-examination of the Complainant's witnesses.

17 DATED: August 1, 2008
