Re: Notice of Safe Drinking Water Act
Enforcement Action against
Six K Incorporated Public Water System
PWS ID# WY5600751

Dear County Commissioners:

Under the Safe Drinking Water Act (SDWA), the Environmental Protection Agency (EPA) administers a program for promoting the safety of public water supplies. In Wyoming, the EPA enforces this program directly, because Wyoming does not have primary authority for doing so. When EPA issues an administrative compliance order to a public water supply system in a state that does not have primary enforcement authority under the SDWA, EPA is required to notify an appropriate locally elected official. Accordingly, the purpose of this letter is to notify you that EPA is issuing an administrative compliance order to a public water supply system in your county.

An Administrative Order is being issued under section 1414 of the SDWA to the Six K Incorporated Public Water System, Laramie, Wyoming. This Order requires that the public water system take measures to return to compliance with the SDWA and the National Primary Drinking Water Regulations. The system is in violation of 40 C.F.R. §§ 141.21(a), 141.21(b), 141.21(b)(5), 141.23(d), 141.201, 141.21(g)(2), and 141.31(b) for failure to monitor quarterly for total coliform; failure to collect at least four repeat total coliform samples after a total coliform positive sample; failure to collect at least five routine total coliform samples after a total coliform positive sample in the preceding month; failure to monitor for nitrate; failure to conduct public notice; failure to report total coliform monitoring violations to EPA; and failure to report National Primary Drinking Water Regulation violations to EPA.

A copy of the Order is enclosed for your information. The Order does not require any response or action by the County Commission. If you have any questions regarding this Order, please contact Melanie Wasco at (303) 312-6540.

Sincerely,

Among other things, the Administrative Order finds that the Six K Incorporated Public Water System (System), is a supplier of water as defined by the SDWA and that you, as the owner and/or operator of the System, have violated the National Primary Drinking Water Regulations (NPDWRs) at 40 C.F.R. §§ 141.21(a), 141.21(b), 141.21(b)(5), 141.23(d), 141.201, 141.21(g)(2), and 141.31(b) for failure to monitor quarterly for total coliform; failure to collect at least four repeat total coliform samples after a total coliform positive sample; failure to collect at least five routine total coliform samples after a total coliform positive sample in the preceding month; failure to monitor for nitrate; failure to conduct public notice; failure to report total coliform monitoring violations to EPA; and failure to report National Primary Drinking Water Regulation violations to EPA.

If the System owner and/or operator complies with the terms of the Order for a period of at least twelve months, EPA may choose to close the Order. Violating the enclosed Order may lead to (1) a penalty of up to \$32,500 per day of violation of the Order, (2) a separate such penalty for violating the regulations themselves, and/or (3) a court injunction ordering compliance.

The following Findings are made and Order issued under the authority vested in the Administrator of the U.S. Environmental Protection Agency ("EPA") by section 1414(g) of the Safe Drinking Water Act ("the Act"), 42 U.S.C. § 300g-3(g), and its implementing regulations, as properly delegated to the Supervisors of the Technical and Legal Enforcement Programs of the Office of Enforcement, Compliance and Environmental Justice, EPA Region 8.

FINDINGS

1. Lisa Poledna ("Respondent") is an individual and therefore a "person" within the meaning of section 1401(12) of the Act, 42 U.S.C. § 300f(12) and of 40 C.F.R. § 141.2.
2. Respondent owns and/or operates a system, the Six K Incorporated Public Water System (the "System"), located in Albany County, Wyoming, for the provision to the public of piped water for human consumption.

3. The System has at least 15 service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year and is therefore a "public water system" within the meaning of section 1401(4) of the Act, 42 U.S.C. § 300f(4), and a "non-community water system" within the meaning of 40 C.F.R. § 141.2.
4. Respondent owns and/or operates a public water system and is therefore a "supplier of water" within the meaning of section 1401(5) of the Act, 42 U.S.C. § 300f(5) and 40 C.F.R. § 141.2. Respondent is therefore subject to the requirements of part B of the Act, 42 U.S.C. § 300g, and its implementing regulations, 40 C.F.R. part 141.
5. According to a May 21, 2003 sanitary survey by an agent for EPA, Respondent operates a system that is supplied solely by a ground water source. The System serves a transient population of approximately 75 persons per day through three service connections, and is open year-round.

FINDINGS OF VIOLATION

I.

1. 40 C.F.R. § 141.21 requires the owner and/or operators of non-community public water systems to monitor the water at least once per quarter to determine compliance with the Maximum Contaminant Level (MCL) for total coliform bacteria as stated in 40 C.F.R. § 141.63.
2. Respondent failed to monitor the System's water for contamination by total coliform bacteria during the second quarter (April through June) of 2005, and the first quarter (January through March), third quarter (July

through September), and fourth quarter (October through December) of 2006, in violation of 40 C.F.R. § 141.21(a).

II.

1. 40 C.F.R. § 141.21(b) requires public water systems to collect a set of four repeat samples within 24 hours of being notified of a total coliform positive routine sample.
2. Respondent failed to collect a set of four repeat samples in August 2005 after a total coliform positive routine sample, in violation of 40 C.F.R. § 141.21(b).

III.

1. 40 C.F.R. § 141.21(b)(5) requires public water systems that collect fewer than five routine samples per month and have one or more total coliform positive samples to collect at least five routine samples during the next month the system provides water to the public.
2. Respondent failed to collect at least five routine samples in September 2005 after a total coliform positive sample in the preceding month, in violation of 40 C.F.R. § 141.21(b)(5).

IV.

1. 40 C.F.R. § 141.23(d) requires public water systems to monitor annually for nitrate to determine compliance with the nitrate maximum contaminant level (MCL) as stated in 40 C.F.R. § 141.62.
2. Respondent failed to monitor for nitrate in 2006, in violation of 40 C.F.R. § 141.23(d).

V.

1. 40 C.F.R. § 141.201 requires owners and/or operators of public water systems to notify the public of any violations of the National Primary Drinking Water Regulations (NPDWR), including violations of the MCL, maximum residual disinfection level (MRDL), treatment technique (TT), monitoring requirements, and testing procedures in 40 C.F.R. part 141.
2. Respondent has not provided a Tier 3 public notice of the 2005 noncompliance detailed in section I, above, and the noncompliance detailed in section II and section III, above, in violation of 40 C.F.R. § 141.201.

VI.

1. 40 C.F.R. § 141.21(g)(2) requires public water systems to report any failure to comply with a coliform bacteria monitoring requirement to EPA within 10 business days after the system discovers the violation.
2. Respondent failed to report to EPA instances of noncompliance detailed in sections I through III, above, in violation of 40 C.F.R. § 141.21(g)(2).

VII.

1. 40 C.F.R. § 141.31(b) requires public water systems to report any failure to comply with any National Primary Drinking Water Regulation (40 C.F.R. part 141) to EPA within 48 hours.
2. Respondent failed to report to EPA instances of noncompliance detailed in sections IV and V, above, in violation of 40 C.F.R. § 141.31(b).
