Re: Closure of Emergency Administrative
Order
Docket No. SDWA-08-2011-0001
Tata Chemicals (Soda Ash) Partners
Public Water System
PWS# WY5600636

Dear Madame/Sir:

This letter is to inform you of the United States Environmental Protection Agency's (EPA) decision to close the Emergency Administrative Order (Order), Docket No. SDWA-08-2011-0001, issued to General Chemical Industrial Products (the Company), now known as Tata Chemicals North America, Inc., as owner of the General Chemical public water system, now known as the Tata Chemicals (Soda Ash) Partners public water system, on October 1, 2010. EPA has determined that the Company has completed all actions outlined in the Order and that the water provided by the system no longer presents an imminent and substantial endangerment to public health. Therefore EPA will close the Emergency Administrative Order at this time.

Please be aware that the Company is still required to comply with the National Primary Drinking Water Regulations (drinking water regulations), 40 C.F.R. part 141. Violation of the drinking water regulations may result in a court-imposed injunction and/or penalties of up to \$37,500 per day of violation.

If you have any questions about this matter, please call Mario Mérida at 303-312-6297. Thank you for resolving these issues.

Sincerely,

Arturo Palomares, Director
Water Technical Enforcement Program
Office of Enforcement, Compliance
and Environmental Justice
