To whom this may concern,

Our organization, Langston Concrete Inc., (LCI) was inspected by the Environmental Protection Agency (EPA) in the beginning of 2011. Our organization and the EPA have been working on a resolution since then. LCI received a "Proposed Assessment of Class I Civil Penalty under Section 309 of the Clean Water Act Docket No. CWA-08-2013-0014 on June 10th, 2013.

After speaking with the EPA over the course of the last week in regards to the Proposed Assessment, it has come to our attention and desire to request an extension on the time frame in which our organization has to file a formal answer with the EPA.

We are still working on a few things with the EPA and are trying to come to an agreement we are both going to be satisfied with. We are looking forward to a resolution, but due to a recent office move, received our Proposed Assessment a few days later than we would have liked to. LCI missed out on 10 days to respond to the EPA and after speaking to the EPA representatives it has come to our attention that we may be able to come to an agreement with some additional information.

Langston Concrete Inc. would like to ask for an extension on the time frame in which we have to file a formal answer to the Proposed Assessment we received. We would like to move the required date in which we are required to file an answer to July 19th, 2013.
