I. PRELIMINARY STATEMENT

The U.S. Environmental Protection Agency (EPA), Region 7 (Complainant) and Diversified Technologies, Inc. (Respondent) have agreed to a settlement of this action before the filing of a complaint, and thus this action is simultaneously commenced and concluded pursuant to Rules 22.13(b) and 22.18(b)(2) of the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Issuance of Compliance or Corrective Action Orders, and the Revocation, Termination or Suspension of Permits (Consolidated Rules of Practice), 40 Code of Federal Regulations (C.F.R.) §§ 22.13(b) and 22.18(b)(2).

II. ALLEGATIONS

Jurisdiction

1. This administrative action is being conducted pursuant to Section 3008(a) and (g) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976 (RCRA), and the Hazardous and Solid Waste Amendments of 1984, 42 U.S.C. § 6928(a) and (g), and in accordance with the Consolidated Rules of Practice. This authority has been delegated by the Administrator of EPA to the Regional Administrator and further delegated to the Director of the Air and Waste Management Division.

2. This Consent Agreement and Final Order serves as notice that the EPA has reason to believe that Respondent violated Section 3005 of RCRA, 42 U.S.C § 6925 and the standards for the management of used oil (40 C.F.R. Part 279).

Parties

3. Complainant is the Chief of the Waste Enforcement and Materials Management Branch in the Air and Waste Management Division of EPA, Region 7, as duly delegated from the Administrator of EPA.

4. Respondent is Diversified Technologies, Inc., a corporation authorized to operate under the laws of Iowa.

Statutory and Regulatory Framework

5. When EPA determines that any person has violated or is in violation of any RCRA requirement, EPA may issue an order assessing a civil penalty for any past or current violation and/or require immediate compliance or compliance within a specified time period pursuant to Section 3008(a) of RCRA, 42 U.S.C. § 6928(a).

6. Section 3008(g) of RCRA, 42 U.S.C. § 6928(g), authorizes a civil penalty of not more than \$25,000 per day for violations of Subchapter III of RCRA (Hazardous Waste Management). This figure has been adjusted upward for inflation pursuant to the Civil Monetary Penalties Inflation Adjustment Rule, 40 C.F.R. Part 19, so that penalties of up to \$32,500 per day are authorized for violations of Subchapter III of RCRA that occur after March 15, 2004, through January 12, 2009. For violations of Subchapter III of RCRA that occur after January 12, 2009, penalties of up to \$37,500 per day are now authorized. Based upon the facts alleged in this Consent Agreement and Final Order and upon those factors which Complainant must consider pursuant to Section 3008(a)(3) of RCRA, 42 U.S.C. § 6928(a)(3), as discussed in the RCRA Civil Penalty Policy issued by EPA in June 2003, the Complainant and Respondent agree to the payment of a civil penalty pursuant to Section 3008(g) of RCRA, 42 U.S.C. § 6928(g), and to take the actions required by the Final Order, for the violations of RCRA alleged in this Consent Agreement and Final Order.

General Factual Background

7. Respondent is a corporation and authorized to conduct business within the State of Iowa. Respondent is a "person" as defined in Section 1004(15) of RCRA, 42 U.S.C. § 6903(15).

8. Respondent's facility is located at 2002 Kingbird Avenue, George, IA 51237. Respondent employs approximately three hundred people.

9. At the time of the inspection, the following solid waste(s) were present:

- a. Spent Fluorescent lamps

b. Paint waste and still bottoms

10. At the time of the inspection, the following hazardous waste(s) were present:

- a. Nine 55-gallon containers of paint waste and still bottoms in the 90 day Hazardous Waste accumulation area; and
- b. One 55-gallon still bottoms outside the paint booth satellite accumulation area.

11. At the time of the inspection, the following used oil tank was present:

LQGs generate 1,000 kilograms per month or more of hazardous waste, or more than 1 kilogram per month of acutely hazardous waste.

13. Respondent has been assigned the following EPA ID Number: IAD007260656.

14. On or about August 24, 2011, and inspector representing EPA conducted a RCRA Compliance Evaluation Inspection (hereinafter "the inspection") of the hazardous waste management practices at Respondent's facility. Based on a review of the inspection report and the information provided during the inspection by facility personnel, it was determined that Respondent was operating, at the time of the inspection, as a Large Quantity Generator of hazardous waste, a Small Quantity Handler of universal waste, and used oil generator.

Violations

15. Complainant hereby states and alleges that Respondent has violated RCRA and the federal regulations promulgated thereunder, as follows:

Count 1

Failure to Conduct Hazardous Waste Determination

16. Complainant hereby incorporates the allegations contained in Paragraphs 7 through 14 above, as if fully set forth herein.

17. Pursuant to 40 C.F.R. § 262.11, a generator of solid waste, as defined in 40 C.F.R. §§ 260.10 and 261.2, must determine if that waste is a hazardous waste using methods prescribed in the regulations.

18. At the time of the inspection, it was determined that Respondent was generating and disposing of the following solid waste streams at its facility: Fluorescent Lamps

19. At the time of the inspection, Respondent had not conducted hazardous waste determinations on any of the solid waste streams described in Paragraph 18.

20. Respondent's failure to perform a hazardous waste determination on the above-referenced solid waste streams is a violation of 40 C.F.R. § 262.11.

Count 2

Operating as a Treatment, Storage or Disposal Facility Without a RCRA Permit or RCRA Interim Status

21. Complainant hereby incorporates the allegations contained in Paragraphs 7 through 20 above, as if fully set forth herein.

Generator Requirements

22. The regulations at 40 C.F.R. § 262.34(a) state that a generator may accumulate hazardous waste on-site for ninety (90) days or less without a permit or without interim status, provided the conditions listed in 40 C.F.R. § 262.34(a)(1)-(4) are met. If a generator fails to comply with any of these conditions, the generator is not allowed to store hazardous waste at their facility for any length of time. Respondent failed to comply with the following conditions:

Failure to date hazardous waste accumulation containers

23. The regulations at 40 C.F.R. § 262.34(a)(2) require generators to clearly mark the date upon which each period of accumulation began on each container.

24. At the time of the inspection, the following hazardous waste accumulation containers were not marked with the date upon which accumulation began:

- a. Four 55-gallon hazardous waste storage drums.

25. Respondent's failure to mark the date upon which accumulation of hazardous waste started on the drum described in the paragraph above is a violation of 40 C.F.R. § 262.34(a)(2).

Failure to label hazardous waste accumulation containers

26. The regulations at 40 C.F.R. § 262.34(a)(3) require generators to clearly mark each container of hazardous waste with the words “Hazardous Waste” while accumulating on-site.

27. At the time of the inspection, the following hazardous waste accumulation containers were not marked with the words “Hazardous Waste”:

- a. Nine 55-gallon containers of still bottoms in the hazardous waste storage area

28. Respondent’s failure to label or clearly mark the words “Hazardous Waste” on each container of hazardous waste is a violation of 40 C.F.R. § 262.34(a)(3).

Failure to have a contingency plan

29. The regulations at 40 C.F.R. § 262.34(a)(4) require, in part, that the generator comply with the requirements of Subparts C and D in 40 C.F.R. Part 265.

30. Pursuant to 40 C.F.R. § 265.51(a), each owner or operator must have a contingency plan for his facility. The contingency plan must be designed to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water.

31. At the time of the inspection, Respondent did not have a contingency plan.

32. Respondent’s failure to have a contingency plan that complied with the RCRA regulations is a violation of 40 C.F.R. § 262.34(a)(4).

Failure to perform annual refresher of hazardous waste training

33. The regulations at 40 C.F.R. § 262.34(a)(4) require, in part, that the generator comply with the requirements of Subparts C and D in 40 C.F.R. Part 265, with 40 C.F.R. § 265.16, and with 40 C.F.R. § 268.7(a)(4).

34. Pursuant to 40 C.F.R. § 265.16(c) facility personnel must take part in an annual review of the initial RCRA training program.

35. At the time of the inspection, several facility personnel whose positions relate to hazardous waste management had not completed refresher training.

36. Respondent’s failure to have employees complete their annual RCRA refresher training is a violation of 40 C.F.R. § 262.34(a)(4).

Satellite Accumulation

37. The regulations at 40 C.F.R. § 262.34(c)(1) allow a generator to accumulate as much as fifty-five (55) gallons of hazardous waste or one quart of acutely hazardous waste listed in § 261.33(e) in containers at or near any point of generation where waste initially accumulates, which is under the control of the operator of the process generating the waste, without a permit or interim status and without complying with § 262.34(a) provided the generator comply with various handling requirements. This type of accumulation is known as “satellite accumulation”. At the time of the inspection, Respondent failed to comply with the following satellite accumulation requirements:

Failure to label satellite accumulation container

38. The regulations at 40 C.F.R. § 262.34(c)(1)(ii) allow a generator to accumulate as much as fifty-five (55) gallons of hazardous waste in a satellite accumulation area, provided the generator mark the containers either with the words, “Hazardous Waste,” or with other words that identify the contents of the container.

39. At the time of the inspection, the following satellite accumulation containers containing hazardous waste were not labeled with the words, “Hazardous Waste” or other words to identify the contents of the container:

- a. One 55-gallon containers of still bottoms in the satellite accumulation area located outside the paint booth area.

40. Respondent’s failure to properly label the drum referred to in the paragraph above is a 40 C.F.R. § 262.34(c)(1)(ii).

41. Because Respondent failed to comply with the generator requirements as set forth in Paragraphs 22 through 40 above, Respondent was not authorized to store hazardous waste at its facility for any length of time, and therefore was operating a hazardous waste storage facility without a permit.

Count 3

Failure to Comply with Used Oil Regulations

42. Complainant hereby incorporates the allegations contained in Paragraphs 7 through 14 above, as if fully set forth herein.

Failure to properly label used oil containers

43. The regulations at 40 C.F.R. § 279.22(c)(1) require used oil generators to label or

clearly mark containers and above ground tanks used to store used oil at generator facilities with the words "Used Oil."

44. At the time of the inspection, Respondent failed to label or clearly mark the following used oil containers: A 1,000 gallon underground storage tank.

45. Respondent's failure to properly label the containers of used oil described above is a violation of 40 C.F.R. § 279.22(c)(1).

In addition, a non-payment penalty charge of six (6) percent per year compounded annually will be assessed on any portion of the debt which remains delinquent more than ninety (90) days after payment is due. Any such non-payment penalty charge on the debt will accrue from the date the penalty payment becomes due and is not paid. 31 C.F.R. § 901.9(c) and (d).

14. Respondent understands that failure to pay any portion of the civil penalty on the date the same is due may result in the commencement of a civil action in Federal District Court to collect said penalty, along with interest thereon at the applicable statutory rate.
