Case Docket No. CWA-05-2016-0004

The U.S. Environmental Protection Agency (U.S. EPA), Region 5, is providing this notice of its intent to file a combination Complaint and Proposed Consent Agreement and Proposed Final Order (Proposed CAFO) against Wayne Dempze Cranberry Company, LLC (Respondent) for violations of Sections 301 and 404 of the Clean Water Act. This Proposed CAFO will settle civil violations alleging that the Respondent discharged fill material into approximately 13 acres of forested and wet meadow wetlands along an unnamed tributary channel flowing to Hemlock Creek without a Section 404 permit between 2004-2009 for purpose of constructing four 3.5 – 5 acre cranberry beds. Under this settlement, Respondent will restore approximately 6.2 acres of forested and wet meadow wetland by 2016 and must seek an after-the-fact Section 404 permit for authorizing the remaining approximately seven (7) acres of fill material. The alleged violations are of environmental significance because stream side wetlands serve to filter surface and ground waters before they reach Hemlock Creek, provide critical habitat and flood storage. The U.S. EPA and Respondent have agreed in principle that Respondent will pay a civil penalty of \$20,000 to resolve this alleged violation.

A copy of the Proposed CAFO may be viewed on-line at: <http://www.epa.gov/region5/publicnotices/index.htm> by clicking on the “complaint (PDF)” link at the Public Notices home page for the docket number identified above.
