Dear Mr. Brown:

The above referenced public drinking water system has violated certain provisions of the Safe Drinking Water Act (SDWA), 42 U.S.C. § 300f, et seq. and the National Primary Drinking Water Regulations at 40 C.F.R. part 141. The violations consist of failure to monitor for disinfection byproducts and chlorine residual. Our records, obtained from the Utah Department of Environmental Quality (DEQ), indicate the violations noted below. Please notify Kathelene Brainich of my staff at (303) 312-6481 within 20 days if your records show any discrepancies with these determinations of violation. A Notice of Violation and Administrative Order were issued to this system in 2004 for other violations and remain in effect.

Printed on Recycled Paper

The State has notified EPA that Daniel Domestic has monitored for chlorine residual during the 3<sup>rd</sup> quarter of 2006 and for HAA5/TTHM in September 2006 (results not yet received).

This NOTICE OF VIOLATION is issued pursuant to section 1414(a) of the SDWA, 42 U.S.C. § 300g-3(a). If the State does not commence appropriate enforcement action within 30 days from the receipt of this notification, the EPA is authorized either to issue an Administrative Order under section 1414(g) of the SDWA, 42 U.S.C. § 300g-3(g), requiring the public water system to comply with the regulations or other requirements, or to commence civil action under section 1414(b) of the SDWA, 42 U.S.C. § 300g-3(b).

A copy of this NOTICE OF VIOLATION has been concurrently sent to the system identified above. Also enclosed for the benefit of the system is a copy of EPA's Small Business Regulatory Enforcement and Fairness Act (SBREFA) fact sheet containing information on compliance assistance resources and tools available to small businesses. EPA has agreed to notify small businesses of their right to comment on regulatory enforcement activities at the same time of an Agency enforcement action. SBREFA does not eliminate a public water system's responsibility to comply with the Act.

Please inform EPA of any change in the compliance status of this system. You may wish to confer with our staff to determine the Agency's position concerning this system and to exchange appropriate information. If the State does not commence appropriate enforcement action within 30 days from the receipt of the notification, EPA will proceed with issuance of an administrative order. Our technical contact is Kathelene Brainich at (303) 312-6481.
