Case Summary.

The case against Red Door Homes of Bismarck (Respondent), Docket No. **CWA-08-2015-0003**, was filed on October 21, 2014. The complaint that initiated this case was combined with a consent agreement for a penalty of \$7,000 for discharges of storm water pollutants to the Missouri River from Respondent's construction operations at Bridgeview Bay and Lakewood Commercial Park Second Addition in Mandan, North Dakota. The discharges were in violation of the storm water discharge permit issued to Respondent by the State of North Dakota. The discharges occurred in August 2013 and were discovered during an EPA inspection on August 15, 2013. The Respondent had failed to install and maintain best management practices, failed to meet permit requirements for a Storm Water Pollution Prevention Plan, and failed to conduct inspections of storm water management at its construction operations. The Missouri River is, and was at all relevant times, a water of the United States.
