Statutory and Regulatory Background

9. Section 301(a) of the Act, 33 U.S.C. § 1311(a), prohibits the discharge of pollutants into navigable waters except in compliance with, *inter alia*, a permit issued pursuant to Section 404 of the Act, 33 U.S.C. § 1344.

10. Section 404 of the Act, 33 U.S.C. § 1344, authorizes the Secretary of the Army, acting through the Chief of Engineers, U.S. Army Corps of Engineers (Corps), to issue permits for the discharge of dredged or fill material into navigable waters.

11. Section 502(5) of the Act defines “person” as “an individual, corporation, partnership, association, State, municipality, commission, or political subdivision of a State, or any interstate body.” 33 U.S.C. § 1362(5).

12. Section 502(12) of the Act defines “discharge of pollutants,” as, *inter alia*, “any addition of any pollutant to navigable waters from any point source.” 33 U.S.C. § 1362(12).

13. Section 502(6) of the Act defines “pollutant,” as “dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, municipal, and agricultural waste discharged into water.” 33 U.S.C. § 1362(6).

14. Section 502(14) of the Act defines “point source,” as “any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged.” 33 U.S.C. § 1362(14).

15. Section 502(7) of the Act defines “navigable waters” as “the waters of the United States, including the territorial seas.” 33 U.S.C. § 1362(7).

16. The regulation at 40 C.F.R. § 230.3(s) defines the term “waters of the United States” to include “all waters which are currently used, or were used in the past, or may be susceptible to use in interstate or foreign commerce...[including] intrastate lakes, rivers, streams (including intermittent streams)...wetlands...the use, degradation, or destruction of which could affect interstate or foreign commerce including any such waters...tributaries of [such] waters...[and] wetlands adjacent to [all such] waters.”

17. The regulation at 40 C.F.R. § 230.3(t) defines “Wetlands” as “those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.”

Factual Allegations and Alleged Violations

18. Respondent is a corporation located in and doing business in the State of Wisconsin.

19. Respondent is a “person” within the meaning of Section 502(5) of the Act, 33 U.S.C. § 1362(5).

20. The White Property is Lot Two (2) of Certified Survey Map No. 3281, as recorded in Volume 18 of Certified Survey Maps on Page 3281-3281C, and being part of Government Lot

4, in Section 30, Township 16 North, Range 13 East, all in the Town of Brooklyn, Green Lake County, Wisconsin (White Property).

21. The White Property contains approximately nine hundred (900) square feet of wetlands (White wetland).

22. The White wetland is adjacent to Big Green Lake.

23. The Flannery Property is Lot Four (4) of Certified Survey Map No. 3288, as recorded in Volume 18 of Certified Survey Maps on Page 3288-3288C, and being part of the Southeast $\frac{1}{4}$ of the Southeast $\frac{1}{4}$ of Section 25, and part of Government Lot 1 of Section 36, in Township 16 North, Range 12 East, and part of Government Lot 4, in Section 30, Township 16 North, Range 13 East, all in the Town of Brooklyn, Green Lake County, Wisconsin.

24. The Flannery Property contains approximately eleven thousand (11,000) square feet of wetlands (Flannery wetland).

25. The Flannery wetland is adjacent to Big Green Lake.

26. Big Green Lake is a Traditional Navigable Water.

27. The wetland is a "Water of the United States," as defined at 33 C.F.R. § 328.3(a) and 40 C.F.R. § 232.2 and thus a "navigable water" as defined at Section 502(7) of the Act, 33 U.S.C. § 1362(7).

Counts I and II: Unlawful Discharges of Pollutants into White and Flannery Wetlands

28. The statements in Paragraphs 1 through 27 are hereby incorporated by reference as if set forth in full.

29. On approximately May 5, 2010, Respondent performed or directed the placement of fill material in the White wetland. The material placed covered approximately nine hundred (900) square feet of the White wetland.

30. Between July 2010 and November 16, 2010, Respondent performed or directed the placement of dredged material in the Flannery wetland.

31. On approximately December 6, 2010, Respondent performed or directed the placement of fill material in the Flannery wetland. The material placed covered approximately eleven thousand (11,000) square feet of the Flannery wetland.

32. At no time relevant to these discharges did Respondent have a permit issued pursuant to Section 404 of the Act, 33 U.S.C. § 1344, to discharge dredged or fill material into the White wetland or the Flannery wetland.

33. The dredged or fill material discharged into the White wetland and the Flannery wetland is a “pollutant” as defined by Section 502(6) of the Act, 33 U.S.C. § 1362(6).

34. Respondent used equipment, including but not limited to a bulldozer, to place the dredged or fill material in the White wetland and the Flannery wetland.

35. Bulldozers are discernible, confined and discrete conveyances, specifically rolling stock, and constitute “point sources” as defined by Section 502(14) of the Act, 33 U.S.C. § 1362(14).

36. The addition of dredged or fill material from bulldozers into wetlands constitutes a “discharge of a pollutant” as defined by Section 502(12) of the Act, 33 U.S.C. § 1362(12).

37. Therefore, Respondent is a person who discharged pollutants from a point source into waters of the United States, without a permit, in violation of Section 301 of the Act, 33 U.S.C. § 1311.

38. Each day the pollutants remained in the waters of the United States constituted a continuing violation of the Act and an additional day of violation of Section 301 of the Act, 33 U.S.C. § 1311.

Civil Penalty

39. Under Section 309(g) of the Act, 33 U.S.C. § 1319(g), the Administrator may assess a civil penalty of up to \$10,000 per day of violation up to a total of \$125,000 for violations of Section 301 of the Act that occurred prior to January 31, 1997. The Debt Collection Improvement Act of 1996 increased the statutory maximum penalty to \$11,000 per day of violation up to a total of \$137,500 for violations of Section 301 of the Act on or after January 31, 1997, 31 U.S.C. § 3701 and 40 C.F.R. Part 19. After March 15, 2004, the maximum total penalty for violations of Section 301 of the Act increased to \$157,500. Effective January 12, 2009, the Administrator may assess a Class II civil penalty not to exceed \$16,000 per day for each day during which the violation continues, to a maximum amount of \$177,500.

40. Based upon the facts alleged in this CAFO, and upon the nature, circumstances, extent and gravity of the violation alleged, as well as Respondent's ability to pay, prior history of such violation, culpability, economic benefit or savings (if any) resulting from the violations, and such other matters as justice may require, U.S. EPA agrees to a penalty of \$12,500.00.

41. Within 30 days after the effective date of this CAFO, Respondent must pay the \$12,500.00 civil penalty by sending a cashier's or certified check, payable to the "Treasurer, United States of America," to:
