Re: Administrative Order Closure
Anticline Disposal Public Water System
Docket No. SDWA-08-2012-0054
PWS ID# WY5601635

To Whom It May Concern:

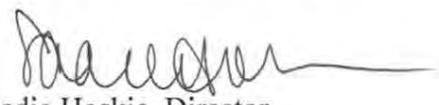

This letter is to inform you of the Environmental Protection Agency's (EPA) decision to close the Administrative Order (Order) issued to the NGL Energy Partners LP (NGL) on September 24, 2012. The EPA has determined that NGL has complied with the requirements of the Order and that, upon reconsideration of the fluoride regulatory requirements, NGL is no longer required to collect quarterly fluoride samples or treat the water. The EPA recommends that NGL continues to provide and maintain the reverse osmosis treatment in order to protect public health in the event that employees of NGL consume the tap water.

The EPA appreciates your commitment to the protection of public health in Wyoming. Please do not hesitate to contact the EPA if you have questions or need additional information. You may contact Arturo Palomares, Director, Technical Enforcement Program, at (303) 312-6053, or Sadie Hoskie, Director, Water Program, at (303) 312-6390.

Sincerely,

Arturo Palomares, Director
Water Technical Enforcement Program
Office of Enforcement, Compliance
and Environmental Justice

Sadie Hoskie, Director
Water Program
Office of Partnerships and
Regulatory Assistance
