Genics CuB 20, EPA Reg Number, 71653-9:

MISBRANDED- The shipment that arrived at the border for import was in violation of FIFRA section 12(a)(1)(e), 7 U.S.C. § 136j(a)(1)(e), because a registrant, wholesaler, dealer, retailer, or other distributor sold or distributed a pesticide which is misbranded in that the labeling has a statement, design, or graphic representation that is false or misleading. The label for the product that attempted import did not have the following required language, “and waterproof gloves”.

Genics CuB 20, EPA Reg Number, 71653-9 and Genics CuRap 22 EPA Reg Number 71653-12:

FAILURE TO FILE REPORTS - The pesticide producer establishment where these products were produced, 71653-CAN-01, has not submitted their 2023 Annual Pesticide Production Report, therefore it is in violation of 12(a)(2)(B)(i), an establishment refused to PREPARE, MAINTAIN, or SUBMIT any RECORDS required under sections 5, 7,ii 8, 11, or 19.

Therefore, the pesticide products in the shipment referenced above cannot be allowed entry into the United States.

The importer should export this merchandise or dispose of the products under supervision of the CBP within ninety calendar days from the date of this memorandum or within such additional time as the District Director of CBP specifies. Failure to do so may result in either the destruction of the merchandise as authorized by FIFRA or in any action necessary to enforce the terms of any bond under which the shipment has been released to the consignee. Alternatively, CBP may elect to seize the products as a prohibited importation pursuant to their authorities as set out at 19 U.S.C. § 1595a(c)(2)(A).

On May 19, 2024, the EPA informed the CBP Cargo Chief in Sweetgrass, Montana, that it would deny entry of this shipment.
