Re: Administrative Order Addendum, Yellowstone National Park Old Faithful,
PWS ID #5680085, Docket # SDWA-08-2016-0013

Dear Ms. Masica:

This letter is an addendum to the Administrative Order (Order) issued on July 6, 2016, to the U.S. Department of Interior, National Park Service(NPS), as owner and/or operator of the Yellowstone National Park Old Faithful public water system. The purpose of this letter is to approve the September 7, 2016, schedule submitted by Daniel N. Wenk, on behalf of the NPS, for coming into compliance with the arsenic maximum contaminant level. The schedule is hereby incorporated into the Order per paragraph 8 of the Order.

Action	Date
Clean filters and filter media at water plant	12/31/2016
Clean sedimentation basins/settling tubes	3/31/2017
Identify polymers that increase arsenic removal	5/31/2017
Jar test various polymer types and dosages prior to and during runoff period	5/31/2017
Final Testing	12/31/2017
Completion/Compliance	5/31/2018

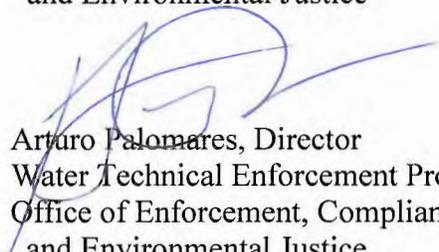

Pursuant to paragraph 7 of the Order, the System shall come into compliance with the arsenic maximum contaminant level by the spring of 2018, the final completion deadline in this approved schedule. The EPA is authorized to seek penalties if these deadlines are not met. If NPS has a reasonable basis to believe it may be unable to meet any deadline in the schedule, it shall notify the EPA well in advance of the scheduled deadline to request an extension. The EPA may, in its discretion, consider granting an extension. NPS shall send quarterly reports of their progress.

Please contact Metea Wright, Environmental Protection Specialist, at (303) 312-6023 or via email at wright.metea@epa.gov if you have any questions concerning this Addendum.

Sincerely,

David Relli for
